Lectures on **Materia Medica.**

By

Prof C.J. Hempel.

McPherson

M

B. C. H.

— *Aconite*. —

Monks Wood, *Aconitum Napellus*, *Aconitum*
Seyserianum, A boy ate some of the leaves
instead of Parsley - In 2 hours there was
a burning in the mouth, throat and stomach
swooning and death. Upon a post mortem
examination there was found to be an in-
flammatory black upon the stomach
and dark patches; the cerebral vessels
were greatly distended with a dark
fluid. Therefore may be used in acute
congestion of brain not arising from
typhus, acute gastritis resulting from
cold or over-eating. Another person
after eating leaves experienced heat
in mouth followed by swelling of face
dimness of sight, general feeling of
numbness, formication stupor in-
sensitivity and death. Therefore use-
ful in paralysis, apoplexy, A man
wife and child ate some roots at dinner
In $\frac{3}{4}$ of an hour there was burning
and numbness of lips extending to the
stomach with vomiting of the dinner with
frothy mucus, coldness of the body ex-
cept the chest &c. In 1824. 1802 of roots
of *Aconite* was given to a criminal. who

he was attacked with oppression of the chest, pain in the stomach, obstruction of sight, very feeble condition of the patient. 5 gr of were given as an antidote. May be given for mania with merriness, neuralgic pains in the stomach, head, joints, dropsical swelling of the abdomen, acute congestion of the kidneys with swelling and stitches in the region of the kidneys and retention of urine, paralysis of the extremities. In diseases where the pulse is intermittent. Dyspeptic weakness of stomach with pressure as if from a cold stone & vomiting of food. Inflammation of the eyes with acid tears. Eyes sensitive to the light, serofulous ophthalmia.

Case of poisoning - 32 scruples of Aconite given - warmth and constriction in the throat. Burning in the oesophagus. restless - unable to remain quiet, tongue white, trembling of the lower limbs. dread of death, upper and lower extremities flexed, eye balls rolled up - extreme anguish, lower extremities continually moving epileptic form of convulsions, fingers closed and thumb turned in, mucous râle, froth at the mouth, acts upon the cerebellum - pulse 125. Primary effect depression of pulse preceded by coldness,

Cerebral Group - Apoplexy - Congestive head ache characterised by a sense as if the head were filled with boiling water or as if a red hot band were around the head sensation as if the skull would fly off, a sensation as if the brain were moving up and down in the skull -

Vértigo - Asphyxia - tightness and dullness in the head - painful pressure of the whole head - pressure on the left eye ball as if from heavy weight - heaviness and sense of dizziness in the head.

Nervous Group. Paralysis - of sentient nerves as of tongue, nose and eyes - Spasmodic torpor in the capillaries producing muscular paralysis. sense of swelling, heat numbness a swelling as if the limb were asleep tingling in the extremities - sense of formication - amaurosis - Spasms powerful contraction in the ham strings, sense of contraction in the tendo Achilles, Convulsions - Palpitation of the Heart with sensation of contraction of the thorax. Sudden Fainting from fright - Nervous Tremors - knees shaking when standing erect -

Neuralgia - with hard aching pains in
various parts of the body - slight drawing in right
shoulder.

Sanguineous Group.

Rush of blood to a part. Inflammation
Synochal. Erysipelas, Neuralgia, Arthritic
Rheumatic - Carbunculous - Inflammation
characterized by a burning, tearing, drawing
itching pain with heat and swelling
Laryngitis. Bronchitis hoarseness, dry cough
rawing in the larynx - scraping sensation
in the fauces - sense of weight behind the
sternum - pneumonia, acute pleuritis
endocarditis, Pericarditis, Gastritis burn-
ing pain in the stomach, vomiting of ingesta,
mucous, bile, blood, when muscular coat
is affected; rheumatic pneumonia, Bilious
Pleuritis. Enteritis burning, drawing, tear-
ing in the bowels, white stools - black fetid
stools - high colored urine depositing brick-
dust sediment - Peritonitis - Puerperal
Peritonitis, suppressed milk, burning
skin - burning to the touch. Hepatitis -
Esophagitis; Inflammation of the mem-
brane of mouth and gums, burning
sensation on tongue, smarting and
biting on the lips - Angina faucium
Adenitis - Inflammation of the accessory

ry glands - acute inflammation of the
special senses and face - Iritis - Con-
junctivitis - sense of heat in the eyes
involuntary half closing of the lids
sensation of darkness - stiches
in the eye ball - Otitis - Cornitis - Nasitis
Acute inflammation of the cheek - periostitis
Ostitis - Acute inflammation of urinary and
sexual organs - cystitis - urethritis - rheu-
matism of scalp - with tearing gnawing
burning stinging pains - rheumatism
of the scalp - Rheumatism of joints
with a creaking in joints, pain in the
left patella - stiches in knee and
shoulder joints - Rheumatism - tearing
in the arm, fore arm & thigh - Rheuma-
tism of bladder - Of muscles - especial-
ly of the deltoid with swelling, when
touched appears bruised - In thigh -
tearing in right alternating with the left -
Erysipelas of skin, face, mucous
membrane - Neuralgic inflammations
myelitis - chronic irritation of the spine
Scrofulous inflammations - Scrofulous
ophthalmia - Morbus Coxarius -
Inflammation of knee joint - Diph-
theritic inflammation - Carbunculous

inflammation. Nervous inflammation of the brain in some instances even forgetting his own name - name of friends and things. Congestions - of kidneys, swelling and stretches in the kidneys, retention of urine - ~~congestion~~ of tonsils and palate. Acute hemorrhage. pulse full and bounding - great palpitation of the heart - foreboding of death, brought on by sudden cause, as exposure, blow - Epistaxis, with aching pain in the whole head - Passive Plethora - dropsy from fright - Ascites Auricular Group - deafness from exposure to cold -

Gastric Group. Acute indigestion, pyrosis, spasmodic dysphagia, when food cannot be retained on the stomach, chronic spitting up of food, ^{sour taste} diarrhoea, watery or serous, involuntary stools, belons burning excoriating the parts, painless diarrhoea pinching in region of the umbilicus. In Colera Asiatica - coldness of tongue. Constipation from nervous debility, stoppage of biliary secretions - In suppressed diarrhoea - Burning piles with copious discharge of blood - ascites

ides with itching at anus and nose.

Bilious Group Jaundice - yellow fever and black vomit. Bilious colic.

Urinary & Sexual Group. Cystitis Urethritis. Dysuria - Ischuria - itching of the Scrotum - involuntary emissions

Cutaneous Group. measles, Rubella, Scarlatina, Purple rash, urticaria,

purpura hemorrhagica, Erysipelas,

Catarrhal Group. hoarseness - Influenza,

Spasmodic sneezing - Nervous

catarrh, Suffocative catarrh - sense of

fright, violent coryza -

Pulmonary Group - Spasmodic Asthma, common cough - dry cough worse at night, dyspnoea, oppression in the region of the heart, great oppression of the chest.

Fever Group. Catarrhal, Rheumatic, Bilious & Typhus Fever -

Mental Group - Mania - with alternation of opposite moods - from fright.

Symptoms Missed. Weakness in head of femur (as if crushed), inability to walk particularly after lying down and sleeping - feeling as if bruised in the back - Inflammatory strangulated hernia.

Arsenic.

Oxide of Arsenicum. Acts either as a poison or narcotic. - Arsenious Acid -

Cerebral Group

Hemicrania characterized by excessive tearing, arthritic or rheumatic pain - pains periodically, pains worse at night. Sudden vertigo with loss of sight. Delirium tremens. Fancies that he sees all kinds of vermin on his bed and many things in the room which trouble him much, weak compressible irregular pulse -

Nervous Group

Tumor of the head, Spasms and Paralysis of the extremities, resulting from general atrophy or irritation of the spinal marrow. Tearing pains in the bones especially at night. Cratic bone pains. Pains in bones worse at night. Periodical back ache characterized by tearing burning aching pains. Atrophy in children. Burning in the spinal marrow as if a breath of hot air were spreading over the spinal marrow, which on reaching the head causes the patient to fall down

Inflam^matory Group.

Gastritis of a gangrenous character with distressing vomiting of bile. inability to bear any liquid on the stomach. extremities cold as ice - pulse small and empty - very soon rising - agonising thirst. Stomachace with a reddish blue color of the internal lining of the mouth, constant discharge of fetid saliva, burning in the mouth. Glossitis characterized by gangrenous ulceration. Angina Gangrenosa - occurring generally in scarlet fever. Phthisis and Pneumonia - characterized by a burning pain in the chest especially at night, creeping chilliness at night, violent tearing dry cough - bad at night. Cancer of the womb - with intensely burning pain - shocking burning pain. with a bloody ichorous discharge - Cancer in every part of the body. Gangrenous inflammation of the scrotum and prepuce. Malignant erysipelas with black pustules.

Orbital Group. Scrofulous Ophthalmia - redness of the conjunctiva - acrid tears swelling of the eye lids. infiltrations

of a purulent matter in the cornea.
Whitish specks upon the cornea.

Correcular Group.

Neuronic deafness - buzzing in the ears - slight inflammation in the ears - with small vesicles arising from the surface.

Gastric Group. Hydrophobia. constriction in the fauces - spasms - constant thirst with aversion to water which causes spasm in the fauces - bitter taste in the mouth - loathing of food - nausea and continual eructations. excessive retching - Vomiting in pregnant females. Chronic vomiting of food - food coming up with bile leaving bitter taste in the mouth. Vomiting of foul blood. Cardialgia characterized by intense spasms of the stomach, with a sensation of agony. Excessive colic characterized by a cutting burning pain in the bowels, swelling of the abdomen. spasmodic pain in the bowels - painful to the touch - great thirst and agony. Diarrhoea watery. intense sense of prostration. Diarrhoea excoriating the parts. mucous bloody diarrhoea. dysentery. intensely burning cutting

pain - constant discharge with violent tenesmus.

Bilious Group

Acute and chronic jaundice - vomiting of bile - intense burning in the epigastrium - great thirst, sallow complexion - Delirious fever - skin hot burning and dry - pulse full and bounding - from 90 to 140 - agonizing headache with vomiting of bile - thirst with inability to take any water - bowels sensitive, slightly excoriated, after which there is sweat which greatly exhausts the patient,

Urinary & Sexual Group.

Retention of urine - ischuria - edema of the scrotum - priapism - corrosive burning leucorrhoea - Metrorrhagia with burning pain and prostration of the system -

Cutaneous Group.

Burning itching all over the body - peeling off of the skin, falling off of the hair - peeling off of the skin like the scales of a fish - *Lepus Nigracans*.

Psoriasis - or peeling off of the epidermis with burning rhagades and discharge

12
f ichorous pus. Black pustule tending
to gangrene. Miliaria. Petechial effu-
sion. Purpura hemorrhagica
Ecmphygus - or blisters on the skin
with burning sensation. tinea capitis
discharge of ichorous pus. with crack-
ing gangrenous ulcers. Phagedenic
ulcers. lupus. Crusta suppurativa
Elephantiasis. anasarca from quinine
or intermittent fever - ascites - hydro-
thorax. Ascites from disease of the
mesenteries and liver -
Catarrhal Group.

Corrosive coryza characterized by an
excessive, thin, ichorous discharge ex-
coriating the part. Dry morning cough
especially at night. Whooping cough
causing emaciation - loss of strength
hoarseness and roughness in the li-
ving membrane - Laryngeal Phthisis
with dry cough - before the spitting stage
Pulmonary Group.

Constrictive dyspnoea, as though the
lungs were tied together periodically
and especially at night. intense
anguish. Angina Pectoris from ex-

pressure. sudden agony with suffi-
cation - Hydrothorax. Pneumonia -
Gangrenosa - characterized by ex-
cessive burning in the chest, very
little expectoration of mucous or
foul blood - Phthisis Pulmonalis - in
the imitative stage - wearing cough -
excessive palpituation of the heart
with intense anxiety - Chronic
cough - dry, tearing, with expectora-
tion of blood -

Fever Group

Intermittent fever - Intense vomiting
and very little thirst during chill
great prostration - patient feels
better near the stove - where pa-
tient has taken much quinine or
other medicine for his fever - Bil-
ious Remittent fever - skin dry and
hot, pulse high, bounding and jerk-
ing, excessive vomiting of bile, violent
headache in front part of the head,
water excites vomiting - sallow look of
the face - patient exceedingly weak
Jaundice - vomiting of blackish
greenish bile - burning in the
stomach -

Typhus Abdominalis - intense pain
in the ileo-caecal valve when pressed
upon. *Typhus Hepaticus* - complains
of an agonizing pressure under the
shoulder blade - hipocratic counte-
nance - vomiting of bile - discharge
of black bile from the bowels - sha-
king of the extremities - being unable
to keep them still.

Mental Group.

Depression of spirits - sense of suffi-
cation and anguish -

Poisoning by Arsenic.

Thirst - redness of the conjunctiva
and eyelids - followed by a cutaneous
eruption, irritation of the stomach
pyrosis, disorder of digestion,
sensation of heat thirst gripping pains
loss of appetite, nausea, vomiting
tongue furred - dryness of the mouth
and throat, extremities numb fol-
lowed by paralysis - falling off of
the hair and nails, oedema of
the feet and face, Gastro-Enteritis
burning pains in the throat stomach,
and abdomen, and rectum, vom-

iting of bile, sometimes blood though not always. constriction & dryness in the throat, thirst - Cutting burning colic, increased by pressure, diarrhoea, tenesmus stools excoarating the anus - burning in the urethra and neck of the bladder - pulse quick, small and irregular - tremulous jerking palpitation of the heart, dry and burning sensation in the lining membrane of the air passages - cramps in the calves - insensibility - eruptions of the skin

Post-Mortem.

Morbid Appearances of the Alimentary Canal - Redness and extravasation of blood into the canal - Effusion of lymph and blood - ulcers - gangrene.

Vascular System - Blood of a dark color and thin - heart flabby - pericardium and valves inflamed - effusion into the Pericardium -

Respiratory System - Redness
of the pleura - effusion into the
cavities of the pleura - redness of
the lining membrane of the ac-
cutes.

Genital Organs - Gangrenous
inflammation and swelling
redness of the conjunctiva -
redness and effusion of serum
into the brain.

Antidotes - Emetic - Sulphate
of Copper - then give mu-
cilaginous drinks - hydrated
sesquioxide of Iron -

Atropa Belladonna.

Grows in damp shady valleys and
also upon high elevations in Europe.
That upon high elevations is the best
and is used in our practice.

It is called Deadly Nightshade and
also Belladonna acts up-
on the venous system producing venous
congestions while Aconite acts upon the
arterial. Cases of Poisoning - Dryness and
constriction in the throat, difficulty in
swallowing - dilatation of the pupils

with amaurosis - ophthalmia with inflammation and redness of the conjunctiva - delirium - sopor, coma and Death - Optical illusions

150 Soldiers in Germany ate of the berries of *Belladonna* - and experienced the following symptoms - Pupils dilated and immovable - Amaurosis - Conjunctiva injected with bluish blood, protrusion of the eyes - a furious look - Lips, palate and throat dry - difficult deglutition and even inability to swallow - Nausea and sometimes vomiting - inability to bear weight upon the limbs - delirium of a mazy character - In some the voice was entirely gone - Emprosthotismos -

7 Cases reported - 2 proved fatal - Dryness of the fauces - excessive difficulty in swallowing - alteration of the voice - scarlet eruption on the body and extremities - dilatation of the pupils - presbiopia - delirium of a wild character subsiding in a pleasing mode - dreams of a pleasant character - a picking at something in the air - Convulsions paralysis -

stupor and coma - Dr Miller of Vienna reported 5 cases in one family - the children ate some of the berries - They attempted to get from the bed - a constant moving of the hands and fingers - desire to lay hold of the coverlet - thirst - inclined to stick their fingers up their nostrils - delirium - vision nearly gone - pupils greatly dilated and insensible - the eye balls alternately rolling about and being fixed - grinding of the teeth - aversion to all liquids - A child Poisoned with berries. A delirium of a Gay character - extravagant - dancing about -

Cerebral Group.

Vertigo - Apoplexy characterized by a deep redness of the face, protrusion of the eye balls - dilatation of the pupils, redness of the conjunctiva - pulse small and empty - Delirium Tremens - of a furious character, seeing of wild ~~fantasms~~ - Congestive Headache - a sensation of fullness in the brain as if the brain were swelling up and head would burst to pieces - a sensa-

Work as if worms were crawling upon the surface of the brain - a sensation of pressure in the forehead as if the brain would fall over the eyes - throbbing pains in the brain - Nervous Headache characterized by burning, boring, shooting, tearing cutting pains -

Nervous Group

Protopalgia or cutting and tearing pain under the malar bone - a condition resembling Hydrophobia - Convulsions - with attempts to run up the wall - renewed by the least contact - accompanied by screams, loss of consciousness, delirium, a vacant smile - accompanied by wild distortion of the eye balls - Starting of hands and feet - Stertorous breathing alternating with complete immobility. Emprosthotonos, opisthotonos - Convulsions of abdominal muscles - Epilepsy with a creeping sensation of formication along the periphery of the body which on reaching the brain causes the patient to fall - Tremor of the Head

Inflammatory Group.

In Phlegmonous, Scrofulous, Nervous or Arthritic
Cancerous Inflammations —

Rush of blood to the face - Erysipel-
atous inflammation of the face char-
acterized by an affection of the
cerebrum - Ophthalmia characterized
by excessive sensitiveness to the light -
Pupils contracted to their least -
Eyes feel as though full of little peb-
bles or hot vapor - Retinitis - deep-
seated aching pain - Iritis - Otitis
characterized by a sensation as though
something would force itself out of the
ear - discharge from the ear of pus
mixed with venous and arterial blood -
Sore throat - Intense difficulty in
swallowing - feels as if contracted -
more difficulty in swallowing li-
quids than solid food - throat looks
as though covered with a mucous
coat, - Saliva viscid - Metritis with
typhoid symptoms - Inflammation of
the Brain - Inf. of the glands - parotid
Submaxillary Mesentary & Inguinal -
Neuralgic rheumatism - characterized
by swelling and stiffness in the

nape of the neck - Paralytic weakness of the extremities. Tingling in the bone and a stinging cutting sensation on movement as if the periosteum would be torn up - Morbus Coxarius - sensation as though the head of the bone were crushed. In first stage of Cancerous Inflammation -

Orbital Group

Amaurosis - Amblyopia - Scotopsia - Comotopsia - Photopsia - The patient fancies that he sees a star at the ceiling - ~~every~~ clouds floating in the air, and fantastical visions. Eyes furiously rolled in their sockets. Hemorrhage of the eye balls -

Articular Group

All sorts of noises heard - boring cutting, tearing & dragging in the ear. Otalgia - characterized by these dragging tearing pains -

Facial Group

Congestion of the face - redness and protrusion of the eye balls - Injected conjunctiva - Nasitis - of the tip especially - with burning stinging pain - a smell as of rotten eggs -

Sensation of smelling entirely gone
Dental & Buccal Group

Drawing tearing throbbing pain in thin
 teeth - redness of the gums - gums
 bleed when touched - tongue feels ed
 numb as though a foreign substance
 were there. induration of the tongue
 & Aphonia - Hemorrhage from capillaries
 of the mouth - a purple line of
 the surface of the mouth. Secretion
 of saliva of a viscid character.

Group of Gastric Symptoms.

A constrictive dryness of the throat
 Dysphagia or inability to swallow. Spas
 modic hicough. Cardialgia character
 ized by contractive spasm in the stom
 ach after eating - Inflammatory colic of
 the transverse colon. pains of intense
 aching crampy character - Flata
 gulent Colic - Nephritic Colic - Strai
 ngulated Hernia - Ileus - Diarrhoea disor
 dered charge. Hard aching neuralgic pain
 in the rectum - Hemorrhagic discharge
 paralysis of the sphincter - Constipation

Urinary & Sexual Group

Paralysis of the sphincter of
 the bladder - Either involun-

scanty discharge or none at all - red
 line or of a deep gold color - some-
 times turbid as though mixed with
 brick dust - deposition of brick dust
 sediment - Impotence - Annihilation
 of sexual instinct - Involuntary emis-
 sions - Difficulty of menstruating -
 flatulency - dragging bearing down
 pain - retarded menses - Suppression
 of the menses with engorgement of
 the womb -

Catarrhal Group

at Hoarseness - Voice feeble weak and
 as hoarse - Aphonia - Cough at night
 accompanied with rattling of
 mucus - Suppuration of the air
 passages - discharge of pus and
 blood -

Palmonary & Cardiac Group.

Stinging pain in the lungs - Asthma
 dyspnoea - Inflammatory disease
 of the heart - tremor - precordial
 anguish -

Fever Group

Remittent and Intermittent fevers
 violent congestion of the brain - Typhus
 fever - puerperal fever, puerperal

24
mania - rage - Nymphomania - Old Cor.
fashioned scarletina. Petechial e. Ho.
ruption - Effusion of blood in the subcutaneous
tissue - Schirous inflammation blood
Erysipelatous inflammation with tendency
to gangrene.

Mental Group.

Delirium - feeling of the persons around
them, appear as though they were counting
ing money - patients undress themselves, can
perfect rage - biting and kicking - can
tear their clothes - See all kinds of
fantasms

Bryonia.

Root used in our practice - Germans
call it hedge turnip - Has its effect upon
on the intestinal canal - ganglionic sys-
tem - and mucous and serous membranes
A Woman ate the root of Bryonia - and
in 4 hours died - there being great dis-
urthra with discharge of the mucous
membrane of the rectum.

Antidote. Infusion of Galls - which pre-
cipitates the Bryonin - in shape of a
white powder - rendering it neutral by
forming it into the Gallate of Bryonin -

Cerebral Group.

Hemicrania - tearing shooting stinging
about the head - determination of
blood to the head - sensitiveness of the
scalp - tetanus caused by wound
has been reported to have been cured

Nervous Group

Prosopalgia pains of a stinging tearing
lancinating character - shooting &
lancinating pain in the serous mem-
branes - burning and soreness in the
mucous membranes.

Inflammatory Group.

Menigitis in the last stage - when there
is gritting of the teeth - clamy sweat, rolling
of the eyes - froth at the mouth.

Arthritic or Rheumatic Ophthalmia of
a chronic character. Otitis stinging
burning shooting pain - buzzing and
whizzing noises - deafness

In Sore throat where there is sub-acute
inflammation - Bronchitis - soreness in
the air passages - burning and tick-
ling in the air passages - exciting a
cough with lancinating pain. Dys-
pnoea when lying down - Cough with
lancinating pains. Pleuritis with

26
expectoration of bloody matter. Violent
congestive headache - symptoms of effu-
sion having set in - Inability to expand
the chest. Enteritis with gripping cutting
pains - violent serous discharge. Heat
in the bowels. Inflammation of the se-
rous and mucous covering of the rectum
discharge of blood and serum from
the rectum. Peritoneal Inflammation,
great sensitiveness in the abdomen, tearing
and shooting pains. Mastitis or infla-
mation of the mammae. Hepatitis - sting-
ing burning pain in the liver - sensitive-
ness to touch, Icteric - reddish brick-
dust sediment in the urine. Inflama-
tory rheumatism - tearing stinging &
lancinating pains in the nape of the
neck and muscles of the back. Tear-
ing pain in the psoas muscle. Drazing
tearing pain in the region of the diaphragm.
Swelling and inflammation of the joints,
where there is effusion threatening - White
swelling of the knee joint,

Orbital Group

Sub-acute ophthalmia from expos-
ure - Rheumatic irritation of the eyes,
with stinging cutting pains -

27

Facial Group.

Stinging burning aching pains in the face - Epistaxis

Dental Group.

Rheumatic tooth ache - tearing pain extending to the ear - Stinging and shooting.

Gastric & Biliary Group.

Loss of taste - bitter foul taste - Biliary and gastric coating of the tongue - nausea and eructations either tasting of bile or acid - vomiting of mucus - bile and food - Cardialgia - pressure on the stomach after eating - Gastrodynia - swelling of stomach, Sensitiveness to the touch - burning sensation especially when moving - a stibele when making a false step - Diarrhoea of mucous or serous character, preceded by cutting pinching pains - drawing and cutting pains in the bowels - with dyspnoea in pregnant females - Inflammation of the rectum - discharge of blood - burning shooting pains - Chronic constipation - Water-brash -

Urinary & Sexual Group.

Copious discharge of watery urine - Metro-
rhagia at time of menses - of chronic
character - hot and scanty urine -

Catarrhal Group.

Influenza - soreness in the chest - Cough
characterized by hoarseness - vomiting of
food - Spasmodic cough - rawness and
soreness in the air passages -

Thoracic Group.

Rheumatic Congestions - soreness and
oppression - Dry racking tearing cough
Hydrothorax from repercussion of erup-
tion. Where an eruption does not come
out properly.

Cutaneous Group.

Rash of nursing women - Measles where the
eruption does not come out properly - Erysip-
elatosus vesicular eruption - Ascites when
from organic disease of the liver - In-
termittent and remittent fevers - de-
rangement in the bilious and gastric
functions - Bilious Gastric and
Rheumatic fever - profuse sweat
in the remission - Typhus of the Brain
when developing - Purpurial fever -
with tympanites and constipation

Mental Group.

Lowness of spirits - condition bordering upon imbecility - In nervous bilious temperaments.

Calcaria.

There are several preparations of Calcaria. Aethiolum - Carbonicum - Phosphoricum - Sulphureum. The Carbonates have a specific action upon the enveloping membranes - serous mucous and fibrous tissues - osseous and glandular system - dermoid system and abdominal nerves.

Cerebral Group.

Hemicrania - periodically - more from exposure to cold air and change of weather - Sensation of coldness in the brain. One patient with 1st group of symptoms and one with the last symptoms were cured with Calcaria.

Inflammatory Group.

Arthritic Rheumatism of chronic character.

(Koeper Sulphuris - cause swelling of the tarsal joints. White swelling of the

sence of chronic character with tendency to effusion - Morbus Coxarius - when suppuration is about to set in or has set in. Chronic Sore throat characterized by swelling and redness of the tonsils with tendency to suppuration - Swelling and redness of the prepuce with discharge of pus - little ulcers on the glans penis - (Scrophulous ophthalmia - Inflammation and redness of the lids. burning itching in the eyes - profuse lachrymation - blurred vision - Hepar Sulphur - an ointment is sometimes made.) - Epiphora threatening Fistula Lachrymalis - Hypopyon - where the anterior chamber contains pus.

Auricular Group.

Otorrhoea in children of scrophulous tint

Facial Group

Scrophulous inflammation of the nose - ulceration of the nose - suppuration of the Schneiderian membrane - or ozoeana

Dental & Buccal Group.

Inflammation - swelling - redness - burning itching pain in the gums -

Gastric Group

Slimy condition of the mouth - greyish, mucous, or bilious coating of the tongue -

Bitter and sour eructations - vomiting of ingesta - oppression after eating - ulceration of the mucous lining of the stomach - pyrosis - loss of appetite - Constipation where there is not sufficient exhalation from the lining of the intestines - In diarrhoea caused by disorganized condition of the mucous lining - Debilitating diarrhoea - Ascander from serofulosa - Suppuration of the rectum with danger of fistulous opening -

Urinary Group - Increased secretion of urine

Sexual Group

Inflammation & redness of the prepuce with discharge of pus - (Equal parts Almond oil & lime water) - premature and profuse menstruation - Burning and itching Leucorrhoea

Catarrhal & Pulmonary Group

Dry cough - worse at night - accompanied by oppression - tearing raw feeling in the air passages - dyspnoea - sometimes expectoration of froth or pus - Smellie says that workers in lime after a while become pleuritic - (Tubercular and pulmonary phthisis) They are also subject to phthisis haemoptysis - ulceration of lungs - Women become chlorotic

Cutaneous Group.

Urticaria - Aene rosacea - Crusta lactea

Eczema with a sero-albuminous exudation leading to the formation of crusts - Dry Itch
 Pinea Capitis causing a little baldness
 Pinea Favosa

Mental Group - Hysterical and hypochondriacal persons.

Fever Group - Intermitent fever with profuse perspiration

Hepar Sulphur. Intense difficulty in passing the air through the larynx with great barking cough - Bronchitis - burning, stinging pain in the air passages - tearing racking cough - expectoration of pus in the last stage - burning in the terminal extremities of air passages - Suppuration of the glands - abscesses or deep cuttings in the skin - chronic erysipelas -

Chloride of Lime.

Stitching, aching pains - soreness and oppression of the chest - Malignant scarlet fever - When ulcerative process is going on -

Chamomilla.

It has a special relation to the biliary system, portal system of circulation and ganglionic system regulating these - Useful in diseases of children

Cerebral Group. Worse at night.

Hemicrania characterized by tearing dragging pains in head - generally resulting from cold.

Nervous Group.

Convulsions - from teething - anger - Pain in bowels - Pains characterized by tearing dragging sensations -

When the extremities are affected lameness, numbness & spasmodic rigidity of the part with nightly exacerbation of the symptoms.

Contractive pain in the spinal column - sensation as though the small of the back would break - tearing and dragging pain running down the thigh - Tingling tearing sensation about the bones

Inflammatory Group

Inflammation of the eyes from cold - itching stinging and

pressure in the eye - agglutination of the eye lids in the morning - Angina faucium or sore throat - Intense inflammation of throat - Swelling and ulceration of the tonsils.

Orbital Group

Symptoms indicating Amaurosis -

A sensation as if fire were darting out of the eyes - accompanied by intense burning - obscuration of vision - luminous vibrations before the eyes - a ray of light appears to be stretched from the candle to the eye - constant twitching of the eye lids.

Utricular Group

Otalgia - dragging sensation excessively distressing and resembling tenesmus

Facial Group

Scrofulous ulceration along the margin of the lips - lower lip cracked - ulceration of the nostrils

Dental Group. Toothache characterized by dragging tearing stitching and boring pain - worse at night - difficult dentition - with fullness

danger of convulsions - the bowels affected - toothache characterized by a sensation as though the nerve of the tooth were scraped

Gastric Group

Alteration of taste - food bitter, slimy and sour taste - loss of appetite - empty eructations - eructations tasting of food - spitting up of food - Nausea after eating with flow of saliva - some vomiting nausea - with feeling of fullness in the stomach after eating then vomiting - Flatulent bilious colic - bowels feel as though pinched up into a ball - flatulence in the bowels without emission
 Hemorrhoidal colic - pinching bearing pains on both sides of the abdomen - a pain in small of back as though would break off - resembling labor pains - Flatulent colic (as though the bowels would press through the inguinal ring - Discharge of mucus or bilious character - of foul and

some smell - diarrhoea with stitches
in the rectum -

Urinary & Sexual Group

Copious secretion of urine - Anxiety during emission of urine - Stinging burning pains at the neck of the bladder - Excitement in the sexual instinct of the male - erections and nocturnal emissions - In Females - Amenorrhoea with fullness in the bowels sometime amounting to dropsical enlargement of the abdomen - exceedingly distressing dragging pains resembling labour pains - Dysmenorrhoea with pinching griping or cutting burning pains in womb followed by a discharge of blackish and foul smelling coagula with dragging - Metrorrhagia with bad smelling blood -

Catarrhal Group.

Dry cough - also with discharge of mucus - Cough dry tearing hacking - soreness across the chest - sensation of constriction about the

chest - cutting shooting pains in the chest - shooting up from the abdomen - Suffocation - worse at night - Cough during dentition and after measles with the above symptoms - Hard, inflamed, swelled nipple in the infant - with a little secretion of pus -

Cutaneous Group.

Pimples on the abdomen from gastric derangement - Milliariae of a burning itching character Intertrigo - or soreness in the groin or between the nates - To alleviate pain in ulcers - burning stinging pain when least touch causes bleeding - Gastric affections causing an erysipelatous eruption on the skin

Fever Group

Fever nightly exacerbation - chill fever with redness of one cheek - Catarrhal fever - Rheumatic fever - tearing dragging pain in extremities - Milk fever - irritability - soreness in the breast - In children - Sopor disposition to sleep

eyes half open - irritability or sleep-
 lipness - with a starting just when
 the patient is about to fall asleep.

Mental Group

Hypochondria - Hysteria -

Antidotes - Coffee, Pulsatilla, Rux-
 Tomica China

China,

Cinchona - Peruvian Bark. From
 Peru - Analogous to the action
 of Arsenicum - Arsenicum acts more
 suddenly and destructively.

Hahnemann recommends Cinchona
 Bark for diarrhoea characterized by
 discharge of slimy viscid mucus
 which can be drawn in strings - great
 prostration - Moist gangrene - dis-
 charge profuse - debility in conse-
 quence. Pains from touch or least
 movement increased - stitching tear-
 ing pains - Disturbed rest - Fright-
 ful dreams arousing the patient on
 falling to sleep - accompanied
 by oppression and anxiety - Phthisis
 stitching or shooting pains in

39

Hæmic fever - profuse night sweats - expectoration of pus

the chest increased by pressure - Sensation as though the chest were pressed with a burning sensation - Jaundice - countenance dingy yellow stitching and crampy pains in the region of the liver - bowels and epigastrium flatulently distended with sensitiveness to contact - vomiting of bile - bitter taste of the food - slimy bitter taste in the mouth, clammy skin - For the Sequels of *Birchona* - *Speacchuana* - *Arsenicum* - *Belladonna* - *Veratrum* - ~~Veratrum~~ When chilliness of the body and cold sweats - Intermittent fever - violent congestions, especially about the head - severe headache - heavy tearing throbbing pains - About the heart severe palpitation and stitching pains. About the chest - oppression - cough - stitching, tearing pains - tearing racking cough - dyspnoea - About the bowels distention - tearing stitching colic pains - About the nape of the neck and Back - distressing aching crampy pains - heavy aching - P. aleness of the

face - Stretching - chattering of the teeth - chill - Thirst - hot fever, perspiration - thirst before or after the chill - Nausea vomiting between the paroxysms - sallowness weakness - little appetite - patient desires to be covered up or sit near the fire - In respiratory Affections wheezing respiration - voice deeper and rough - Sensation of tenacious mucus in the larynx, causing suffocation at night.

A Soldier took 48 grains - and experienced the following symptoms - buzzing in the ears - giddiness - violent vomiting - blindness and deafness delirium - incapability of walking vomiting of bile -

Cerebral Group Periodical headache -

Blindness and deafness after Typhus after Hydrocephalus - Delirium Tremens with symptoms of great rage - Intermittent fever with violent congestion of the brain, danger of apoplexy - Vertigo -

Nervous Group

Weakness from loss of fluids - shooting Spasms of neck and chest - Paraplegia

and tearing pains close to the bones, excited by touch or pressure

Gastric Group

Slimy or mucous tongue, bitter taste of food, flat insipid taste, aversion to food, loss of appetite or the opposite bulimy - empty or bitter eructations - oppression at the stomach after eating - remaining for some time - heaviness & drowsiness after eating - tenderness in the pit of the stomach - especially when touched - fetid flatulence from the bowels, Diarrhoea - blackish or slimy and teneceous - excoriation of the anus and stitches in the rectum

tingling in the anus - with sensation of burning which may extend to the genital organs - costiveness - bowels distended with flatulence - flush on the cheeks - fullness in the head

In persons of a full habit -

Urinary & Sexual Group.

Scanty discharge of urine with red sediment or white urine with white sediment - erections and nocturnal emissions -

profuse menstruation - with dark coagula -

Catarrhal Group - Difficult respiration - wheezing -
Sensation in the larynx as if full of
mucous - voice deep and rough -
Suffocative attacks as if throat were
full of phlegm - particularly at
night - Shooting pain accompanied
with sensation as though the chest
were pressed in -

Cutaneous Group

Moist and wet gangrene with
weakness from discharge - Jaun-
dice - stitching pain in the region
of the liver - sense of swelling in
the epigastrium - dirty yellow com-
plexion - tension in the liver - stitch-
es in the liver and soreness - Head-
ache, shooting pains in the head -
nausea - vomiting of bile loss of appetite

Fever Group

Intermittent fever - chill pre-
ceded by stitching and yawning -
complexion sallow - Hardaching pain
in the back - chill chattering of
the teeth - nails bluish - cutis an-
sima - Fever - flush of the face

Headache - congestions to different parts - [See Page 39]

Frightfull dreams - patient waking just when falling to sleep -

COCULUS INDICUS.

Grows in the East Indies - poisonous to most animals - 3 or 4 grains caused fainting and vomiting - Acts upon the spinal system of nerves -

Boy 12 years of age - took 2 Semples of fish bait which contained the Coculus - and experienced the following symptoms - unpleasant taste burning in the oesophagus and stomach - not relieved by vomiting pain over abdomen - enteritis febrile excitement - ~~diminished~~ delirium - died 19 days after taking the poison

A ~~man~~ took $\frac{1}{2}$ grain of Coculus and rolled it around his mouth - and was taken with - great apprehensiveness, coldness, paralytic rigidity of the limbs, drawing in the bones and back -

extreme irritability - increased by increased temperature - sensation as if the brain were contracted by a ligature - desire to sleep but when falling to sleep - he is awakened as if by a frightful dream - extreme soreness of the parts -

Antidotes. Nux Vomica Iodine & Camphor.
Cerebral Group.

Vertigo - resembling intoxication - hemi-crania - sensation as though the brain were tied with a ligature - pain as if the eyes were torn out of the head - Spasmodic shaking of the head -

Nervous Group.

Paralytic rigidity of the extremities - convulsion of the arms with clenching of the thumbs - hands turned inward
 Dr Gross after taking Cocculus experienced the following symptoms - Sensation of intoxication - loss of consciousness - shock like electric shocks throughout the whole system but especially in the extremities, Convulsions of the arms with clench

ing of the thumbs and turning in of
the hands - hands cold - forehead
cold - eyes set - face distorted ex-
pressing rage - teeth set - lips drawn
apart - stertorous breathing - "

Boring stitching laming
bruising constricting pains - either
in the bones or muscles - painful
stiffness and creaking in the
joints -

Inflammatory Group

Gastro-enteritis - Peritonitis - when
as symptoms of Abdominal Typhus -
Special Senses.

Buzzing in the ears - dimness of sight
muscae volitantes - black figures
before the eyes

Gastric & Biliary Group

Dryness in the fauces - burning in the
fauces - down the oesophagus - burning
in the fauces as if having swallowed
hot coals - accompanied by shivering
or shuddering of the head - dys-
phagia - eructations producing
soreness in the pit of the stomach -
When feeling cold there are eruc-

tations accompanied by sickness at the stomach and flow of saliva.

Nausea when riding in a carriage.
Soreness of inguinal ring and sensation as if the bowels were pressed through the ring - caustiveness - diarrhoea with fetid smell - stools followed by tenesmus in the rectum
Urinary & Sexual Group.

Soreness in the testes - premature menstruation - dysmenorrhoea - spasms in the bowels - beating and drawing in the sexual parts - flatulence of the bowels - spitting up of water and vomiting - constrictive cutting pains in the rectum and lower part of the bowels - and the sexual parts - serous and purulent discharge from the vagina with soreness of the parts. Profuse discharge of watery urine.

Catarrhal Group -

Spasmodic constriction of the lungs - wheezing stertorous breathing sometimes amounting to suffocation -

Cutaneous Group

Blotches and pustules on the skin - tinea capitis - (Ointment made of Cocculus - 1 part berries 2 parts lard - Also Cocculin 10 gr to 1 ounce of Lard)

Fever Group

Bilious fever - dry mouth - coldness of the hands - bilious coating of the tongue - Abdominal Tiffness
In the first stage - bowels distended - soreness of the bowels - chilliness along the back - perhaps all the way down to the feet - coating of the tongue, dryness of the throat - diarrhoea with fetid smell -

Mental Group

Depression of spirits - desire to weep irritability -

C OLOCYNTH

A man swallowed 3oz of Colocynthe - experienced - violent pain in the epigastrium - excessive vomiting - copious alvine ejections - obscuration of vision - difficulty of hearing - delirium followed by vertigo.

A man powdered a pound of Colocynthe and swallowed it - Experienced excessive pains in the bowels. bloody evacuations - severe pain in the bowels causing patient to double himself up
 A Lady some nine in which Colocynthe had been macerated - Experienced violent cardialgia - frequent vomiting, violent cutting colic - Serous, mucous bilious - bloody discharge from the bowels
 Colocynthe acts more particularly upon the sentient nerves -

Cerebral Group

Hemicranial sensation as if the temples were scraped in - tearing and digging pains in the brain - sometimes accompanied by burning pressure in the eyes. Sensation as though the hair were pulled up

Nervous Group

Tearing, drawing, stitching pains in the joints and along the bones, boring pain in the bones - Neuralgia of the femoral nerve - shooting darting tearing pain - pain as though a knife were run through the joint when rising up from a chair - which is relieved by motion

^mInflammatory Group

Angina with a sensation as if the throat had been scalded. Enteritis. Peritonitis. characterized by violent cutting pains in the bowels - with discharge of blood

Special Senses.

Burning pressure in the eye balls - cutting pain in the eye balls - obstruction of vision - vibrations before the eyes - sensation as if the balls had become hard. Buzzing in the ears. hardness of hearing, throbbing sensation from middle of the nose up to the root. digging and burning pain in the facial muscles. Intractable tearing stitching pains in the teeth - sensation as if the nerves were scraped and put on the stretch.

Gastric Group.

Empty eructations - excessive vomiting - colic - cutting pain in the bowels. darting stitching in the region of the ovaries. Constipation feces as hard as stone - Diarrhoea with mucous bilious bloody stools - Pressure in stomach as from stone - Stitches in liver Watery stools. Increased watery urine

Cutaneous Group

Itching accompanied with increasing restlessness - Lymphatic tumours upon the testis -

Fever Group

In bilious fever - when feces pass off like hard stones - or stools of a mucous bilious bloody character -

Sexual Group Stitches in the ovaries -

Nocturnal emissions - erections - priapism - retraction of the testes - profuse menstruation - premature menstruation

Mental Group

Persons cannot believe that they are in their own rooms Errors in judgment -

FERRUM.

The preparations of Ferrum are Ferrum Metallicum, Aceticum, Carbonicum, Iodatum, Sulphuricum Muraticum -

Ferrum aceticum is generally used in our practice -

Cerebral Group - Rush of blood to the head vertigo - throbbing pain in the head Hemiparesis - heaviness in head -

dizziness as if intoxicated - Pulse loose & full

Nervous Group - Feeling of languor - anæmia.

"**Neuritis** - Sense of lameness in the voluntary muscles - gont characterized by tearing stitching pains in the extremities - Swelling in the joints of the lower extremities. Pain in small joints

Special Senses.

Swelling of the gums - painfullness in the tongue - (Stomachice or nursing sore mouth Acetate of Ferrum in a wash) Recommended as an antidote to Mercury when it affects the gums.

Gastric Group Oppression of the stomach - White coated tongue

Bitter taste of food - Constant vomiting of ingesta - thrown up as soon as eaten - Sore vomiting - (Vomiting in pregnant females Carbonate of Iron) Dyspepsia of drunkards - enlargement of the bowels from

Swiness of the bowels when touched, as if diarrhoea would set in - Diarrhoea where undigested food is passed - Mucous diarrhoea - itching gnawing sensation in the anus - ascariides - lumbrici - debilitating diarrhoea in male persons - fluent hemorrhoids characterized by a discharge of mucous and blood - passive hemorrhage from the bowels - sense of warmth in stomach - cavities - burning sore mouth

Urinary & Sexual Group. Burning in urethra - urging to urinate - Profuse and more or less involuntary discharge of urine - when from worms - Erections accompanied by nocturnal emissions - spermatorrhoea - impotence - leucorrhoea making the parts sore, metrorrhagia ^{blood discharge} - ^{menstrual} discharge, sterility, amenorrhoea from inability of the nervous system - Chlorosis - Discharge of mucus from the urethra - dysmenorrhoea -

Respiratory Group.

Tickling in the larynx with constant desire to cough - Spasmodic cough with expectoration of mucus - Sensation as though hot air were rising in the wind pipe - Oppression of the chest - dyspnoea - ^{worse during walk} determination of blood to the chest - palpitation of the heart - Haemoptysis - expectoration of fetid greenish pus - Phthisis of the Larynx and Trachea - fixed pain in the the larynx - hoarseness - great soreness to touch - purulent expectoration - hectic fever - night sweats - (Florid Phthisis) Cough, expectoration of greenish foul bloody pus. Loss of appetite - patient emaciated very speedily - Annum iodatum - Hectic fever - Night sweats -

Hæmoptysis from scrofulous diathesis
Cutaneous Group.

Persons of poor blood subject to eruptions
upon the skin - Sores -

Fever Group.

Intermittent Quartan Fevers -

Mental Group.

Hysteria - Hypochondria - in females
of a chlorotic habit - or brought about
from excessive loss of blood and sexual
excesses -

Muriate of Iron - When mine deposits crystals of a
red color -

Antidotes - China & Pulsatilla -

Ferrous antidotes the effects of
China - and chronic effects of
Mercury - Sesquioxide of Iron - antidotes
Arenic -

Conium Maculatum.

Spotted Hemlock - Grows from
3 to 6 feet high - When the leaves
are rubbed between the fingers there
is a smell like cat's urine - Socrates
is supposed to have been poisoned by this
Conium acts upon the brain and
whole system of nerves -

An alkaloid is made from *Conium* called *Conia*. *Conium* produces a
frustration of the spinal marrow
Suited to Scrophulous, Tuberculous, Can-
cerous and Paralytic conditions
Adapted to the debility of old people
induration of glands - from a fall
or a blow -

Cerebral Group Vertigo - coma apoplexy

Nervous Group Coxalgia in the first
stage - pain soreness and heat,
chronic rheumatism of the joints -
leading to effusion and disorganiza-
tion of the joint - skin inactive - epi-
lepsy from sexual excess -

Orbital Group. Cataract - when caused
by a blow upon the eye - photophro-
bia - muscae volitantes - delusion
of color - streaks of colored light
Presbyopia

Auricular Group - Scrophulous hump of hearing.

Nasal Group - Scrophulous odœna

Buccal Group - swelling of the tongue - par-
alysis of the tongue - ptyalism

Gastric Group. Dysphagia - vomiting after
a blow upon the stomach - Scrophulous

enlargement of the abdomen - pancreatic
mucous glands - Constipation - mus-
cular coat of the bowels inactive -

Urinary & Sexual Group

pain during micturition - cutting, af-
ter which burning pain - swelling and
sculp of the testes from a blow or fall
Amorhœa in scrofulous subjects -
Hypertrophy of womb, schiroids of the
the womb.

Respiratory Group

Constant desire to cough - scraping
in the larynx - Laryngitis. seated pain
expectoration of foul greenish pus - from
suppression of gonorrhœa.

Cutaneous Group. Humid Herpes -
crusts with burning sensation - cracked
tete with oozing of an acid fluid -
Itch-like eruption - Ulcers which
have a blackish appearance - matting
of the hair - swelling and indura-
tion of glands from a blow.

Mental Group. Where the imagination
is affected rage - precordial anguish
with throbbing in the chest and stomach.
Hypochondria from sexual abstinence.

Antidotes. Emetic - then Large doses of
black coffee

CICUTA VIROSA

White hemlock - Tincture made from the leaves - Causes Convulsions and spasms. Produces - In the head vertigo - dimness of sight - headaches. Difficult respiration, In the abdomen - Burning pain in the epigastrium - vomiting - heat and dryness of the throat. Mucous Membranes congested - Also produces Swelling of the face - protrusion of the eye balls. difficulty of breathing - foaming at the mouth - Epilepsy - Tetanic Spasms. Stiffness of the limbs - Spasmodic breathing. In one case produced nausea - burning at the epigastrium. burning colic pains in the bowels, coma Tetanic convulsions. Used in Epilepsy - Cataplexy - Eclampsia - Hysterical Spasms - General Spasms.

Spasms - characterized by Vertigo which causes the patient to fall - Loss of consciousness - bloating of the face - sometimes deep redness - protrusion of the eye balls - Staring look - cerebral

congestion. Hemorrhage from the ears.
 violent swelling of the neck. gritting of
 the teeth foaming at the mouth, dys-
 phagia, thirst - spasmodic sin-
 gultus - vomiting or attempt to vomit -
 burning in the epigastric region - throbb-
 ing in epigastric region - throbbing
 in the pit of the stomach which is
 swelled up to the size of a fist. irrita-
 ted taste - retention of urine - in-
 voluntary spitting out of the urine -
 jactitation of the limbs - intermittent
 breathing, after a spasm - excessive
 chilliness - In the spasm - perfect
 immobility - loss of sensation -
 Causes a pustulous eruption on the
 hands and face - hairy scalp - pus-
 tules filled with a yellowish pus.
 Diplopia - Hardness of hearing -

DIGITALIS

Fox Glove - Affects the ganglionic sys-
 tem of nerves and the cardiac plexus.
 Causes intermission and depres-
 sion of the pulse.
 Poisoning One pinch of the powdered leaves

were taken with these symptoms. Extreme bitterness in the mouth - more copious secretion of saliva - When spit out, an acid feeling in the fauces - slight desire to vomit - palpitation of the heart.

Cerebral Group. Headache from occiput to frontal

Vertigo - accompanied by slow pulse and more or less irregular - pain and distress in the head - loss of consciousness - syncope - Sensation as though the brain were beating like water against the sides of the skull - stitching headache.

Nervous Group.

Excessive debility accompanied by depression of the pulse - sometimes syncope with depression of the heart's action, Convulsions - loss of sight

Special Senses. Smarting lachrymation - Icteria
Inflammation of the Meibomian glands, dimness of sight - Sometimes amaurosis - things appear as though veiled with snow - persons appear pale as though they were dead - things appear red, green, or yellow - Ptosis of a fetid character or accompanying dazing sensation - diplopia - Musco-volantes -

feeling of oppression, and feeling as the heart ^{is}
were grasped with the hand - surging vibrations -

iced with a fetid breath. Lips and
tongue swollen -

Gastric Group. Water brash - dysphagia - with burning, ^{& constriction} swelling

Loss of appetite - sickness at the stom-
ach - nausea as though the stomach
would die out, alternating with
heaviness in the stomach - vomiting
of green bile - Jaundice characterized
by ~~intense~~ vomiting - vomiting
of green bile - slow pulse or oppo-
site - tongue red - bitter taste in the
mouth - prostration - sallowness of the
face - sensation as if the bowels were
twisted together - and as if the
region of the stomach were drawn
in - Vomiting followed by violent
diarrhoea of an ash color - Large
doses produce neuritis followed
by nausea - Small doses produce
retention of urine - gnawing hunger - liquid or papaceous stools

Catarrhal Group.

^{1st} Haemoptysis - cough of a tearing
character - heat in the chest - dys-
pnoea - depression of the heart's
action - sometimes even cessation
of pulse - contractive oppressive -

sensation in the region of the heart - accompanied by anguish and spasmodic pain - patient faints when in the erect posture - Anæmism of the large vessels - pulse slow, labored, and tendency to intermission - Hydrothorax depending upon organic disease of the heart - dropsy of the pericardium as sequela of some disease - palpitation - depression of pulse - intermittent and slow pulse -

Cutaneous Group

Embrasive gnawing itching of the whole body - if not rubbed or scratched, changing into a burning pricking - Anasarca - pulse feeble and intermittent - Lips livid - skin cold belly fluctuating - pitting on pressure - Cyanosis - blue lips, tongue, nails and eye lids - pulse intermittent - weak and hurried Antidotes - vomiting and then the administration of Stimulents Professor ^{semp} that strong coffee might be a good antidote -

DULCAMARA.

Bitter Sweet. It is a running wind -
Poisoning by the Berries. For children
ate the berries. In one hour - Excruciating
pain in the intestines - great heat in the
throat and chest, sensitiveness of the
abdomen to pressure, nausea, thirst
prostration - breathing painful and
hurried - feverish excitement -
Another child in addition to these
had - violent vomiting. profuse pyralism

Cerebral Group

Nervous Catarrhal headache - boring
pain in the head - sensation as though
the brain would expand - accompanied
by a sense of chilliness of the whole
body. Headache as though hard
bodies were pressing against the
forehead.

Nervous Group

Oedematous swelling accompanied
with painful insensibility.

Special Senses. Catarrh irritation of the
eyes with dimness of vision - mus-
cae volitantes - Catarrhal deafness
buzzing and difficulty of hearing

rhumatic paralysis of the tongue

Gastric Group

Nausea - violent vomiting. diarrhoea
profuse ptysalism - vomiting accom-
panied by anguish and heat in the
chest, diarrhoea with pinching
cutting pain - loose watery - slimy
or yellowish discharges

Urinary & Sexual Group

Retention of urine - burning at the
orifice of the urethra, tetter upon
the prepuce and when reversed
gonorrhoea is the result. Bright's de-
crease of the kidneys - Herpes on
the prepuce and labia majora.

Respiratory Group

Catarrhal cough - tickling in the
fauces with expectoration of frothy
mucous, Cough from measles - whoop-
ing cough when nearly subsided
Pneumonia - inflammation of the
bronchial tubes and parenchyma
of the lungs - expectoration of frothy
mucous - stinging pain - rattling
cough - sense of burning - dyspnoea

Cutaneous Group

Urticaria - red spots upon the body. Moist Eczema - distressing itching at night - swelling of the inguinal glands from cold -

Fever Group

Catasthal and Rheumatic fever - accompanied by chilliness and heat at night! Double Tertian fever -

Graphites.

Carburet of Iron - Plumbago. Hahnemann recommends as an anti-peoric. Chronic eczema - smooth or vesicular - Salt rheum - spreading Eczema - Eczema Crustaceus. Linea Capitis - dry and moist. Tordid ulcers on the lower extremities - secreting a fetid and itching pus - Dysmenorrhoea with more or less pain -

Females subject to tettes which disappearing causes disorder of the sexual organs - Induration and swelling of the testes producing impotence - Catasthal affection of the Eustachian tube - sensation as though something were stretched across the ear - patient hears beatings of the carotids.

Hepar Sulphuris

Recommended by Hahnemann for Hemis-
 cranial - characterized by boring pains
 coming on periodically - Inflammation of the
 eye lids - Scrophulous Ophthalmia - copious
 secretion of tears - sensitiveness to the light
 Ulceration of the cornea - Scrophulous Oph-
 thal - Oedema - Recommended for Mer-
 curial Syphilism - Chronic dyspepsia
 oppression after eating - tendency to
 spit up the food - Chancreous ulcers
 on the glans penis - Croup when child
 unable to breathe without difficul-
 ty - membrane just forming - Chronic
 Bronchitis - Tickling in the larynx
 causing distressing cough - expec-
 toration of little frothy mucus -
 Breathing as though the air passages
 were filled up - (Itch - 1 part Hepar
 8 of water - A sponge dipped in hot water
 and then saturated with the solution
 and an application made) Hoepes
 prepuccialis - Chronic Erysipelas - Tinea
 Capitis - Mollusca - Swelling and
 induration of glands with necessity to facil-
 itate suppuration - Whitlow -

Helleborus Niger. *Ranunculaceae*

Not used in our practice - Two persons took a decoction in cider - $\frac{3}{4}$ hour afterward - vomiting - delirium - horrible convulsions - coldness afterward - Dissections afterwards in all the patients were alike. The lungs were engorged with blood - mucous coat of stomach inflamed of a black brown color - almost in a gangrenous state - The Extract of Hellebore was taken. For 8 hours afterward vomiting - pains in the abdomen allayed by warm bottle - vomiting of 2 or 3 spoonfulls of a greenish matter - bile - Stomach and intestines found inflamed except larger bowels.

Cerebral Group - absent minded - no refreshing sleep - dipping persons with closed eyes and ears - see and hears indistinctly - Alteration of the sense of taste - diminution of memory - Stupifying headache as though tight skin were drawn over the brain - Sensation as if the brain had been pounded or bruised - Hydrocephalus - accompanied by degeneration of lining membrane of the mouth

Stinging ulcers in the mouth and on the tongue - paleness and sallow complexion -

Special Senses. *Sporadic*

Amausic weakness of eyes - difficulty of hearing from general depressed condition of the brain - Catarrhal irritation of the Schneiderian membrane - spasmodic sneezing.

Gastric Group.

Bitter taste in mouth and of the food - profuse flow of watery saliva - nausea and vomiting of green bile or mucous - purging with pain in the bowels - jelly like discharge from the bowels - burning in the stomach ^{as from hot ing.} - anxiety, cold sweat - sense of suffocation or strangulation in the throat, rigidity of the limbs during the spasm.

Urinary & Sexual Group. *Lsp. of sexual instinct*

Urging and scanty urination afterwards copious discharge - Dropsy as sequel of Scarletina - Amenorrhoea - with tendency to dropsy if not relieved.

Respiratory Group

hurried breathing - oppression or slow breathing - sensation as though the

gasping for breath - Dry racking cough - 67

chest now drawn in - edema of the lungs
Hydrothorax accompanied with
orthopnea - Hydropericardium - diminished respiration
Cutaneous Group - Lepa - Plica polonica

Itch like eruption - vesicles around
the joints, full of watery fluid - Kopjes -
yellowish spots - covered with whitish thin
scales. Anasarca as sequelae of eruptions -

Fever Group. Small pulse.

Slow Typhus. when there is fever at night
burning heat interiorly - chilliness exte-
riorly - coldness of the extremities. Inve-
rate Quarten fever - with enlarge-
ment of the liver and spleen -

Mental Group

Mania - Hypochondria - Symphomania
Loss of mind. Melancholia - when from
abstemiousness or ananism

HYOSCIAMUS **N**IGER

Black Henbane - Acts more intense-
ly when gathered in the fall. Seeds
are more powerful than the roots and
the roots than the leaves - Active principle Hyoscinin

Cerebral Group

Vertigo sometimes lasting a fortnight

Vertigo with obscuration of vision; vertigo as if
intoxicated - loss of sensibility - Stupor -
faction - loss of recollection - heaviness
of the head - violent headache - heavy
and gloomy feeling of the head - cloud-
iness of the head - stupifying headache
accompanied with throbbing and
burning pain in the brain, unnatural
heat in the brain - undulating sen-
sation in the brain - arteries beating
violently - temporary amaurosis -

Orbital Group - dimness or obscuration of sight
patient fancied seeing things red
as fire - golden yellow - things appear
larger than they are - In trying to read
the letters appear like ants moving
about - see things double or triple -

pictures or things around the room
appear as if falling, sparkling of
the eyes, redness of the eyes - presby-
opia with dilatation of the pupils -
spasmodic rolling of the eye balls
staring look - spasm of the eye lids
Blepharospasmus with inability to open them

Cerebral Group Stupor - constant desire
to sleep - excessive prostration

delirium - loquacious - furious - muttering -
 incoherent - patient using insulting
 language - sarcasm and is obscene - grasp-
 ing at flocks, picking at the bed clothes -
 desire to escape - The ^{face} face is burn-
 ing hot and dry - then patient becomes
 cold and covered with a clammy viscid sweat
 Urine scanty - more or less involuntary
 diarrhoea - Phrenitis - Typhus febrilis - Delirium trem.

Nervous Group

Fainting, weakness, general prostration,
 lower extremities sometimes paralysed
 inability to stand upon the feet, pros-
 tration and trembling of the whole
 body. Chorea - Risus Sardoniacus - Epilep-
 tic convulsions - falling down sudden-
 ly and ^{thumbs clenched, frothing at mouth} uttering a cry. Tetanic convulsions
 alternate convulsion of the upper and
 lower extremities. Convulsions during
 which the feet are stampeded upon the
 ground. Tetanic convulsions - with tossing
 up of the body. Subultus tendinum -
 Spasms with involuntary discharge
 from the bowels and bladder - Hem-
 plegia - neck twisted to one side - pain in
 all the joints as precursory of Meningitis
 Multiple convulsions

70 distorted, clay colored face with gasping
and smelling breath.

Rheumatic pains in the extremities and
joints - and loins - numbness of the
extremities.

Nasal Group. Epistaxis.

Facial Group. - Redness and bloating of the
face - brown and red color of the
face - frequent change of color.

Oral Group. - Burning dryness of the tongue
tongue like scorched leather, numbness
of the tongue, impeded speech - dumb-
ness.

Throat Group. - Hydrophobia. Stinging
dryness of the throat. Spasmodic
constriction - inability to swallow
the least water which causes
spasm.

Gastric Group. - Bitter taste, watery
vomiting and nausea - Spasmodic
siccough - Burning pain in the stom-
ach - spasmodic colic pain - Colica-
dynia - colic as if the abdomen would
burst - relieved by pressure - rumbling in
the bowels - violent diarrhoea - watery &
slimy diarrhoea more or less involuntary -

Urinary & Sexual Group. - Enuresis - retention of urine
impotence - increased flow of menses - metror-
rhagia with urines - Dysuria & onus -

Trymphsemia *Quicidal moria* 77

thaxia accompanied with sweat and excessive debility-*nausea & concussio*-

Catarrhal & Respiratory Group. *bluings of face*

Day spasmodic cough - whooping cough - in spasmodic stage - dyspnoea - *protrusion of eyeballs* -

Cutaneous Group

Septic spots on nape of neck.
Large pustules from the hips to the feet - like small pox pustules; brown spots over the whole body going away and coming again - *Andarced* -

Mental Group - Loss of recollection - immovable, like a statue - loquacious delirium - patients naturally pious swear and use obscene language - Indomitable rage - desires to travel - *chrysis* -

Fever Group. *Typhus fever* - skin hot - face bloated - sparkling eyes - low muttering delirium - skin cold and covered with a clammy sweat - Small Pox with typhoid symptoms

Sleep - Stupor - restlessness - breathing stertorous. *Sopor* -

Antidotes

Emetics - doses of Sulphate of Copper - after which large doses of Coffee -

Ignatia Amara.

St Ignatius bean. From a tree on the
Philippian Islands. The primary ac-
tion of Ignatia is upon the spinal
cord. Produces death convulsions
Lock jaw - Risus Sardoniacus.

Cerebral Group.

Hysteric Hemiparesis - sensation as
if a nail were sticking in the
brain - sensation as if a hard body
were pressing upon the surface of
the brain. Intolerable crampy pains
at the root of the nose causing vom-
iting.

Orbital Group

Nervous Photophobia. profuse secretion
of tears. Sensation as though white
zig zag vibrations were interfering with
the vision.

Dental Group

Pain as if the teeth were
crushed - throbbing jerking pains in the
teeth as if the nerve were put on the
stretch and suddenly relaxed.

Throat Symptoms.

Angina - Stinging pains.
between the acts of swallowing. Sensation as if the
throat were passed over a lump - as if a
ball were rising up in the throat.

Gastric Group.

Flat and chalky taste - sallow taste - aversion to milk and warm food - nausea with uneasiness and anxious feeling at the pit of the stomach - feeling as if the stomach were empty - sense of exhaustion - flat taste in the mouth - sensation if needles were pricking in the pit of the stomach - diarrhoea with cutting pain in the lower bowels - prolapsus of the anus - with inability to pass a stool - ascarides in children

Catarrhal Group. Constrictive sensation in the throat, exciting cough as if from vapors of sulphur

Cutaneous Group.

Itching yielding to scratching, then appearing in another.

Fever Group. Intermittent fever. Thirst during the chill, paroxysm accompanied with depression of spirits

Mental Group. Hysteria. Melancholia
Antidotes. Acids. Vinegar or Citric Acid

74
Nux Vomica.

Nux Vomica affects the spinal column, motor and sentient nerves, brain - Affects the cerebellum. 15 grains of Nux Vomica has produced death. The active principle of Nux is *Stygnina* - It forms salts with Gallic, Citric, & Muriatic acid -

Antidotes. An emetic then an infusion of galls. Alcohol in large doses.

Cerebral Group

Headache from over eating, from excessive use of coffee, spirits - excessive mental emotion - Sensation as if the head would split - pressure with sticking pains - Catarrhal Hemisrania, heavy aching throbbing pain in forehead worse by stooping or blowing the nose Hysterical Headache accompanied by nausea & vomiting sometimes spasmodic - excited by mental emotion Periodical Headache. when rising and continuing during the day - seated boring aching pain in the portion of the head accompanied by vomiting of bile - Congestive.

72
Headache. Sense of congestion about the head
caused by abuse of spirits, coffee, constipa-
tion, sedentary habits. Rheumatic Head-
ache, soreness of the scalp to touch, tearing
sticking pain. Gastric Headache
vomiting of some mucus, fullness in
the stomach - accompanied by consti-
pation, fullness of the bowels. flatulence
Apoplexy. In persons who eat too much
Vertigo - as if intoxicated in persons
addicted to the use of coffee spirits
and great mental emotion. Vertigo
with tendency to swooning. Delirium Tre-
mens. vomiting of bile violent congestion
of the brain - protrusion and redness
of the eye balls - shivering stupor
limbs paralysed being unable to sup-
port himself pulse full and bound-
ing. **NERVOUS GROUP.** Sudden failing of strength, wear-
iness after the least exertion - heaviness
in the upper and lower extremities
so as scarcely able to raise them,
pain in the joints as if bruised
especially during motion - violent
pain in muscles during any mo-
tion - trembling of the limbs -

Tetanic convulsions. Trismus. Opisthotonos - excited by contact or any external stimulus. Pulse frequent and fluttering, generally perspiring. Spasms in the muscles of mastication - may affect any muscle in the body - preceded by chill and shuddering accompanied by sensation of formication, along the tract of the nerve sometimes. Sensation of electric shock

Tetanic convulsions alternating with aspluppia and relaxation - chorea - paroxysms mingled with tetanic symptoms. Paralysis not accompanied by congestive or inflammatory symptoms. Rheumatic Paralysis *Le Douleureux*, tingling hard aching stinging pain - aggravated by motion or contact. Neuralgia of the spinal marrow - burning, stinging, tearing, sensitive, - hard aching pain, burning pain.

Inflammatory Group.

Chilblain - redness and swelling of the fingers - itching in the mild season - warm room or in getting into bed -

77

Arthritic inflammation and swelling of
the knee, nodes.

Orbital Group

Arthritic Ophthalmia - burning itching
pain - discharge of tears - sensitiveness
to the light - hemorrhage in the eye ball,
Strabismus.

Dental Group

Toothache from use of coffee - Arthritic
toothache - more or less congestion, pains
sticking drawing tearing jerking burning

Buccal Group

Disorganization of the mucous membrane
of the mouth - Aphthae of the tongue
profuse sialism - bloody saliva espec-
ially in the morning. ulceration of the
gums. Stomatitis - fetid smell of the
breath - countenance livid or sunken

Gastric Group

Burning sensation along the oesophagus -
regurgitation of sour bitter fluid - heat
and burning pain accompanied by
retching, vomiting of mucus and bile
sensitiveness of the epigastrium to pres-
sure - burning sensation in the region
of the pylorus - accompanied by vomiting
loss of appetite - Hunger with easy satisfaction

8
Cardialgia from abuse of coffee, spirits
tobacco &c. - sense of heaviness in the
stomach. - desire to vomit espec-
ially after eating. Dyspepsia of
drunkards. Hemetification from
trypor or semiparalysis of the peri-
staltic motion of the bowels. diar-
rhoea - accompanied by cutting
pain in the liver & bowels &
extending down into the thighs
Alternate tendency to diarrhoea
and constipation - discharge
of white mucus accompanied by
bearing or pressing down in the rec-
tum, & sometimes by biliary calculi - vomit-
ing and cold sweat. Hemorrhoidal
colic - as if the ~~small~~ of the back
would break off - bowels feel hot
and as if they would be torn in
pieces by wind. Colic of pregnant
females, as if bowels were cut with
knives - and twisted up into knots.
Strangulated Hernia - Hernia of
Pregnant females from bearing
down during labor - Piles from abuse
of coffee, spirits, and heavy pressing
rephetic colic.

down during stool - prolapsus ani
from paralysis of the sphincter - Con-
striction of the sphincter -

Urinary & Sexual Group

Strangury accompanied by burning
searing pain in the neck of the
bladder - paralytic retention of
urine - incontinence of urine
Spasmodic irritation of the erector
penis muscle - therefore erections -
Spasmodic pain in the spermatic
cord, swelling heaviness and draw-
ing of the testicles - Gonorrhoea from
suppressed piles - premature and
profuse menses - Discharge copious
accompanied by vertigo - headache
palpitation of the heart - nausea
increased sexual desire - leucorrhoea,
yellow and fetid - leaving a
stain upon the linen - Sometimes
taking the place of the menses - dys-
menorrhoea - characterized by prema-
ture and scanty discharges, spas-
modic bearing down - vomiting
headache - buzzing - falling of
womb and vagina - when there is
deficiency of the nervous action

Catarrhal Group -

Influenza

Thoracic Group.

Spasmodic asthma, suffocative breathing, spasmodic rigidity of the muscles or parenchyma of the lungs. Asthma from atmospheric influences. Spasmodic cough - vomiting of food - sensitiveness and soreness in the stomach.

Fever Group

Intermittent Fever - characterized by gastric symptoms, rush of blood to the head - Nervous irritation about the peritoneum - sensation as if the bowels were pricked with pins

Mental Group

Hypochondria - Melancholia - Hysteria Derangement brought on from eating too much -

Nux Vomica is suited to irritable temperaments.

Kali

Carbonicum - Chloricum - Nitricum - Bichromicum - Hydriodicum -

Kali Carbonicum.

Amenorrhoea - Pulmonary affections: Cough with expectoration of pus and blood - Stinging pains and sense of constriction on the chest. Tubercular phthisis. Cough dry tearing and racking, hectic flushes, night sweats. Gastrodynia - pressure after eating, nausea, flow of water from the mouth like lime water. Inflammation and stricture of the oesophagus.

Kali Bichromicum.

Rheumatic sticking shooting pains in the muscles, aching lamining pains in the joints - swelling all over the body - edematous. Redness of the conjunctiva, swelling redness and glandular degeneration of the eye lids -

Pustules and Leucoma of the cornea, Discharge of yellowish pus and photophobia, loss of vision, Inflammation and ulceration of the Schneiderian membrane,

Odysæna, discharge of serous purulent bloody matter. Thurg. of hardened mucous. Redness of the fauces, inflammation and swelling of the uvula, ulcer discharges tenaceous yellowish pus. Chronic syphilitic angina.

Dyspepsia - water brash with shivering, nausea and vomiting of undigested food, Sense of coldness in the stomach,

Cardialgia, uneasy feeling - soreness, tenderness in the pit of the stomach with nausea - heat in the hands and feet, dyspepsia of the month, heat passes off then comes perspiration.

Dysentery - pain in the umbilicus, bloody stools, ~~Croup~~

Ulceration of the Larynx, seated pain, tearing and racking cough, Chronic bronchitis, cough, tickling in the larynx, expectoration of a dark grey yellowish mucous, blood streaked mucous,

Cough preceded by wheezing and
panting - often followed by great
vertigo. Fixed burning pain in
the sternum, dull circumscrib-
ed pain in some parts of the chest
Oppression dyspnoea -

Papulous, eruption, pustules size of
peas, blackish stongle in the centre,
Inflamed base. Itching follow-
ed by pustules, forming scabs,
Large ulcers. dark centres, over-
hanging edges.

Kali Chloricum.

Antidote to mercurial bone
pains, oppression of the chest.

Diaphoresis. Gonorrhoea, common
clap, 5grs dissolved in 1 oz of
water - 10 drops 3 times a day -

Kali Hydriodicum.

Headache as if the head
would fly to pieces - at night
indicated in mercurial &
syphilitic complications. Discharge
of an acid liquid from the
nostrils, swelling and infla-
mation of the nose.

1844
Lachrymation, pain in the ears.
Redness of the face, Beating
in the forehead with vio-
lent compression, Loathing
at the stomach, chilliness,
shivering - white tongue
hoarseness, nasal voice
thirst, dry hot skin,
red hot scanty urine,
Coiter. Scrofulous ophthal-
mia, induration of glands,
Secondary Syphilis of ev-
ery kind, Syphilitic od-
or, Eruptions of a mer-
curial or syphilitic char-
acter, Tubercular phthisis
if resulting from Syphi-
lis

Iodine.

Cerebral Group.

Hydrocephalus, headache, vertigo, sense of intoxication accompanied by cerebral congestion; headache with pressure in the forehead and occiput, stitches through the eyes and ears.

Nervous Group

Paralysis of the lower extremities, sinking of the nervous power. Tremor first trembling in the hands, then in the muscles of the arm and back - so that when placing their hands to the mouth there is a zig-zag motion of the arm. Atrophy

Special Senses

Shaking & oscillating movement of the eye balls and lids, sensation as if things were in motion, Luminous rays - hardness of hearing, dryness of the ear - dragging pain in the ear as if something would be drawn out, pain in the whole nasal bone up to the forehead. profuse pyhalism accompanied by fetor. formation of aphthae.

Sponginess and bleeding of the gums.
 the gums receding from the teeth.
 Constriction in the throat - burning
 in the fauces, and down the oesophagus
 to the stomach.

Gastric Group, Trembling in storm. spreading to periphery
 Canine hunger - pain in the stom-
 ach. Large doses produce bilious di-
 arrhoea, stools bloody mucous, and
 purulent matter. Small doses pro-
 duce constipation

Urinary & Sexual Group.

Dark colored urine and scanty. then
 the reaction, copious and light yel-
 low urine - violent pyæsemia, pre-
 mature menses - copious and violent,
 miscarriage. uterine hemorrhage

Catarrhal Group

Coryza - lachrymation, frontal head-
 ache. hoarseness and cough - pain
 in the larynx - with expectoration of
 hardened mucous. Sensation of
 pressure in the larynx with expectora-
 tion of hardened mucous. Tickling
 in the pit of the throat. Cough
 with expectoration of blood streaked

81
mucous. Inflammation of the trachea
with burning and stinging
pain -

Thoracic Group Tightness & pressure ^{thorax} in ^{negative} chest.
Asthmatic oppression of the chest.
palpitation of the heart accompanied
by a sensation as if the heart were
squeezed together -

Cutaneous Group. *Purpura hemorrhagica*.

Swellings & Indurations - Goiter, bubo, Ovarian
tumors. enlargement of the liver, ac-
companied by ascites -

Atrophy - Atrophy of the mammae and
glandular system -

Inflammations. Scrofulous inflammation
of the knee joint, hard and tense
pain as if cut with knives - Syno-
vial membrane affected -

Dropsy - Anasarca - ascites - edema of the lower
extremities. **Eruptions** - ulcers under the
epidermis. Phagadenic ulcers. Hydrocele.

Fever Group. Typhoid fever with emaciation,
pulse quick and small, hectic cough
and flushes. there may be diarrhoea
Iodine antidotes *Stychnia* -
Starch antidotes Iodine.

Ipecacuanha.

Grows in the South of Brazil - Introduced into France in 1640 as a remedy for diarrhoea and dysentery - Seems to affect primarily the pneumogastric nerve, and solar plexus of nerves = to capillary engorgement. Is suitable to delicate sensitive females and children - has a specific relation to periodical diseases recurring at night. In the air passages excites spasmodic asthma, and in the stomach excites vomiting.

Cerebral Group.

Headache as if the brain were bruised, pain in the brain, congestion of the head from irritation of the stomach.

Nervous Group.

Tetanic spasms in children from gastric irritation.

Gastric Group

Flat taste - rancid oil in the mouth, profuse salivation, nausea with empty eructations, nausea and retching. Paroxysms of vomiting of mucous at night - intense anx-

ichthy. Vomiting of pregnant females.
 Hematemesis. Neuralgic colic, as if a
 hard hand were pressed on the
 abdomen, the fingers stretched apart
 and the points of the fingers boring
 into the bowels. Serous Diarrhea
 vomiting of white mucus. Asiatic
 Cholera - first stage

Urinary & Sexual Group.

Hematuria - spasmodic irritation
 of the neck of the bladder. Dysuria.
 Hemorrhage from the uterus -

Respiratory Group

Suffocative cough of children -
 Whooping cough with gastric irritation
 Dry cough - tickling in the larynx
 Cough, pain in the umbilicus as if
 it would be torn out. Hemoptysis
 Spasmodic asthma constriction -

Fever Group

Intermittent fever - gastric derange-
 ment. Rheumatic fever. Gastric
 symptoms.

Cutaneous Group.

Picking pains, becoming burning, after
 being scratched, like urticaria -

Mercurius.

The various preparations of Mercury -
Mer-sol - Mer-ir - Mer-jod - Mer-cor - Mer-
dulc - Mer-alb - Mer-sub - Mer-acet

Mercurius Sol

Cerebral Group - Apoplexy from softening
of the brain - Bone pains in the head
head aching pains coming on at night.
Headache as though the head were
pressed assunder - Headache in bilious per-
sons, Headache characterized by stitch-
ing pains through the head.

Nervous Group Paralysis preceded by
trembling - Tremor - may affect the
muscles of the back or whole body.
Stammering. Neuralgia - drawing pains
along the motor nerves. Syphilitic epilepsy.

Inflammatory Group. Pulse quick, hard but
not full. Inflammation of the mucous
membrane - soreness and dyspep-
sia - deficiency of secretion - worse at night
Angina faucium. Throat inflamed - gums
more or less swollen - streaks of a
whitish or yellowish appearance. U-
vula - red - elongated - covered with glassy mucous
tonsils enlarged and painful - pain

as though a splinter were sticking in the throat when swallowing. Profuse secretion of saliva, Glossitis. Tongue more or less soft. edges indented, Conjunctivitis, accompanied by profuse secretion of pus, unable to open the lids in the morning without washing. Burning pain in the canthi, as if sharp body were sticking in it. sensitiveness to light, profuse secretion of tears. Otitis. Internal ear swollen with pain and great heat. feather pillow makes it worse. discharge of pus, paucid and sub-maxillary glands swollen, pus fetid, more or less deafness, noises of all kinds. Inflammation of the glands swelling and inflammation of the glandular system from cold or exposure. Periorbitis. drawing tensive pains. then gnawing - burning pain when exudation. Internal Periorbitis. Pain from extremities toward the center, prickling darting pains, through the muscular tissue. Swelling and Inflammatory action in the

93
interior of the joints.

Special Senses. Inflammation of the eyes.

Amaurosis - sensation as if a blade of grass were hanging from the eye lashes. Blurred vision. Rheumatic pains in the ear, tearing drawing rheumatic pains, rawness, sense of excoriation in the internal ear, discharge of pus without inflammation, Buzzing roaring whizzing in the ear. Inflammation of the Schneiderian membrane, Dryness, constant desire to sneeze followed by a discharge of water then turning into pus. Nostrils sore. Ptyalism - flow of tasteless water, then may assume a fetid character. Ulceration of the corners of the mouth. Canula. Rheumatic paralysis of the jaws, more or less painful. Toothache, pain stitching great. soreness, Tooth feels elongated as if it would fall out, sense of chilliness -

Gastric Group. Brawsy taste, foul, sweetish or saltish taste, loss of appetite or the opposite. Patient perhaps desires ale to quench his thirst. Eructation bitter or bilious. Pyrosis, Sensation of nausea burning in the pit of the stomach.

94 Burning pain in liver from within intestines

swelling or enlargement of the liver, pinching colic, so distressing as to cause fainting, accompanied by sallowness. when the pinching passes off there is an evacuation. Constipation - feces hard, like sheep dung or large balls, diarrhoea whitish, yellowish smelling like burned sugar, brownish with fetid smell, or greenish, It may be mucous glutinous or fecal. Diarrhoea accompanied by a sense of excoriation or actual excoriation of the anus. Cozing, itching, or clamminess at the anus. Ascariasis. Aversion to coffee and acids. Drowsiness about an hour after eating. Inflammation of the inguinal Gland.

Urinary & Sexual Group Enuresis, urine deposits a mucous sediment. Haematuria from cold, stitching and beating in the urethra after micturition, greenish discharge, **Male Sexual**. Tickling at the orifice of the urethra, scratching increases it, shriveled appearance of the glands penis, Swelling and suppuration between glands and prepuce, Inflammation and swelling of the prepuce burning pain, Chagades on the

inside of the prepuce, red on the outside,
vesicular eruption on the glands, breaking
discharging pus and forming ulcers.
surrounded by a hard elevated bor-
der, painful when touched, discharg-
ing pus. Swelling of the testicle, and
atrophy, draining in the testicle and
spermatic cord, painful nocturnal
erections, nocturnal emissions mixed
with blood, swelling of the penis.

Female Sexual. Distressing itching of the parts
in paroxysms, prolapsus of the vagina,
purulent excreting leucorrhoea, some-
times greenish and fetid, discharge
of mucus from the vagina coming
in flocks sometimes with pus and blood
metrorrhagia, itching of the labia before
menses, eruption of pimples and blotches
on the labia;

Catarrhal Group Influenza - cold in the
head, tightness and dullness about the
head, headache, diminished smell,
buzzing in the ears, sneezing, discharge
of water from the nose, sometimes pus.
Hoarseness and complete loss of voice
dry cough, from tickling in the pit of

96
the throat, after coughing hard, expectora-
tion of sweetish saltish mucus, soreness
in the chest, sensation as if it would be
torn to pieces, sympathetic affection
of the stomach causing vomiting, dys-
pnoea resulting from sensation of
smoke, burning pain in the chest
stitches and soreness in the chest, pal-
pitation of the heart, sometimes as
though the heart would fly out.

Cutaneous Group. Eczema, first appearing
on the bend of the knees, then upon the
scrotum, miliaria white rash, pre-
ceded by nervous irritation, Herpes pre-
puccialis. Eruption of brownish spots
secreting a whitish scurf - exsuffurating
Pustules in various parts of the body
tubercles and blotches, secreting pus
and whitish scales itching and
burning, Herpes on the extremities
small reddish spots, itching with
voluptuous pleasure but distressing on
account of its constancy, Dropsical
swelling of the legs and feet. In-
flammatory swelling of the joints
of the hands and feet, red,

77
painful and sore, Itching leading
to formation of scabs, secreting a sticky
pus. Syphilis, Ascites, with enlarge-
ment of the liver, Jaundice charac-
terized by yellowness, pain in the
pit of the stomach, as from an ab-
cess or ulcer, Nausea, vomiting of
bile, yellowness of the conjuncti-
va, least pressure on the stomach
sometimes produces vomiting, urine
foul, bowels generally costive, Small-
pox - pygalism, when the eruption is out
Marasmus, oedema of the feet, or lower
extremities, Caries of the bones, Osteo-
sarcoma. Caries of the jaws. Loss of the
nails, Falling off of the hair,

Fever Group. Catasthal fever, sense
of coldness, creeping and shivering
along the back, and appears cold,
Crisis anserina during the paroxysms.
Pulse little quicker than usual
Rheumatic Fever, chill, heat and
dryness of the skin, worse at night
Congestions of liver accompanied by
bilious derangement, Bilious & Gastric
Fever, Skin dry and hot, tongue thickly
coated white. Sore taste

coated, desire to vomit particularly after drinking, Congestive fever, violent bilious congestion of the brain, violent burning pain, accompanied by delirium, & intense headache.

Fever - sense of coldness - frustration - least exertion produces weakness.

Fever - characterized by profuse clammy debilitating sweat, coldness of the skin, Wakefulness at night, with unpleasant fancies.

Mental Group Anxiety in the præcordia, loss of spirits, lunnacy,

Antidotes - Nitric Acid. Phygalism

Iodine Phygalism

Hydriodated Potash. Constitutional Affects from Springs. Cachexia, nervous debility, marasmus -

Opium - phygalism, wakefulness.

Guajacum - Mercurial Rheumatism.

Belladonna - Congestions

Sassaaparilla - Mercurial affects upon skin.

Nux Vomica - nervousness.

Phosphoric Acid - Periostritis - Phosphorus

Phosphorus & Scilla. Caries. Necrosis Osteo Sarcoma.

Asafetida. Caries - Osteo Sarcoma.

Sulphate Lime - Neuralgia - Spasms.

Acetate of Lead. Diarrhoea

Muriate of Gold oedema. Caries of the nasal and palatine bones

Mercurius Corrosivus.

Syphilis of an old character. Secondary syphilis, Hydrocephalus, Syphilis Cerebralis. Effusion into the brain children stupid, jaws hanging and symptoms of paralysis, Dysentery, constant discharge of blood, violent cutting pain, violent tenesmus - retention of urine.

Mucous Enteritis, intense burning pain in the stomach and lesser bowels, discharge of mucous, purulent matter or blood, vomiting of bile, Paralysis, ushered in by tremor accompanied by emaciation pulse quick irregular easily compressible, Typhoid Fever, heat on skin as if it were being scorched, Leprosy, white scales coming off like fish scales, accompanied by cracks in the skin from which blood oozes
Antidote - Albumen. White of Eggs -

Opium

Opium contains, Morphia, Narcotina, Codeia Narceia and Meconic Acid. $\frac{1}{4}$ grain of Morphia equals 30 drops Laudanum. Small doses $\frac{1}{4}$ to 1 grain acts as a stimulant.

Antidotes. Stomach pump - Emetic Sulphate of Zinc, after which give vegetable acids. Large doses of Black Coffee. In Homoeopathic doses Acon. Bell. Camphor. Coffee.

In congestion from suppressed diarrhoea from Opium. Acon. Bell.

Cerebral Group. Apoplexy, comatose condition, pulse slow and feeble, inability to rouse the patient, Delirium Tremens, face bloated, bloated. Typhus Cerebralis, Lopor or low muttering delirium, Nymphomania. Puerperal Mania, Stupifying headache accompanied by extreme wakefulness - pain in the brain as if the brain were torn.

Nervous Group Neuralgia of the coeliac plexus. Intensely cutting pain in the bowels

101

SYMPTOMS

Gastric Group. Constipation - from diminished exhalation. Colic (Lead)
Dianthoea -

Urinary & Sexual Group. Retention of urine from paralysis of the fibres of the bladder. Constant dribbling of urine. Exaltation of the sexual function. Nocturnal emissions with violent erections Lascivious fancies

Respiratory Group - Oppression of breathing hardly perceptible or stertorous, sensation about the heart as if full of burning coals.

Cutaneous Group Profuse sweat heat and dryness of the skin

Mental Group. Exalts the fancy
expression

Sleep Sopor, stupor, & coma -
loss, wakefulness,

102
PHOSPHORUS.

Discovered by Brande in 1669.

Antidote - Demulcent fluids, then give Magnesia.

Cerebral Group Vertigo as if the patient would be lifted into the air. Headache symptomatic of other disorders - Stuporizing headache with vertigo.

Nervous Group. Numb of the extremities. Paralytic debility

Inflammatory Group. Rose colored inflammation around the ankle joint. Inflammation of the ascending vena cava accompanied by a burning sensation in the stomach and along the back.

Special Senses Inflammation of the Conjunctiva, characterized by irritation of the corners of the eyes. Sensitive - up to the light, profuse secretion of tears, agglutination of the eyelids upon getting up in the morning. Inflammation of the lids. Black spots before the eyes, Sensation of gray mists, Incipient Amaurosis

100
Scrfulous hardness of hearing, accom-
panied by humming and whis-
zing in the ears. Inflammation of
the Schneiderian membrane. first
discharge of mucous, then put &
swelling of the nose, face callous
and bloated, suppurative appear-
ance. Prosopalgia, burning aching
hearing pain, Necrosis of the jaw.

Gastric Group White coating on the tongue,
parched, cracked or black crusts
on the tongue, Slimy taste, loss of
taste, increase of appetite, some-
times canine hunger, empty eruc-
tations, nausea, vomiting of bile,
Some vomiting sometimes prece-
ded by vertigo, hands and
feet numb and cold, cold sweat
on the forehead, Esophagitis.
burning pain in the epigas-
trum and stomach, Gastritis
vomiting of black bile mixed with
clark blood, dyspepsia pressure
at the stomach after a meal
vomiting of mucous bile or food
Cardialgia. contractive, twisting,

804
crampy pains in the stomach. Inflammation of the ileum - burning pain in the ileum accompanied by diarrhoea, watery, mucous, or bloody. Cholera with above symptoms - Chronic diarrhoea watery or purulent with debility.

Urinary Group. Frequent urination, depositing of white flocks, or brick dust sediment, opalescent urine.

Sexual Group. Increased desire for sexual intercourse. Nocturnal emissions. Increased faculty of becoming pregnant. Premature meneses, nodosities forming in the mammae, suppuration and fistulous opening of the mammae.

Catarrhal Group. Influenza - characterized by a discharge of mucous or greenish pus. Swelling of lower part of the nose. Hoarseness. Aphonia, Incipient Laryngitis, Cough accompanied by constant tickling throughout.

the chest, resulting in expectoration of blood streaked mucous. Pneumonia, (lower lobes solid and filled with blood) oppression of breathing - Stitches in the chest, unusual irritation throughout the chest Abscess of Lungs

Cutaneous Group. Chelblain. Inflamed begin to break, discharge of an ichorous fluid, glandular swellings in persons under low state of the system, burns, whitlow, herpes, round spots over the body - Scaly tinea capitis - fistulous ulcers with callous edges - Caries of bones

Fever Group Typhic fever - Remittent fever prostration of the forces, emaciation, Typhus abdominalis - pain in the region of the ileo-caecal valve tympanitis sensitive to pressure Purulent diarrhoea, Typhus putridus - decomposition of vital fluids, tongue blackish, hemorrhage from the gums, bowels and pores of skin petechiae

Mental Group Buoyancy of spirits Restlessness - Wakefulness & disturbing dreams.

8906
PLUMBUM.

Cerebral Group Encephalopathia, expression of the eyes mild, at other times an expression of dissatisfaction and stupidity. Some laugh others cry. Sometimes talk rationally then incoherently trembling of the arms, eyes wild, features contracted, attempt to injure persons gnitting of the teeth, subcaltus tendinum, shriek, sweat, tongue dry and parched, covered with a blackish crust and so the teeth. Sopor between the paroxysms, face straw colored, pulse full and regular, Headache characterized by violent pains from occiput to forehead.

Nervous Group Rheumatism. flexor surfaces more affected than the extensor. Lower limbs first, then upper limbs, lumbar region, wall of the chest, back neck, pains have irregular course, numbness and weakness in part some time before it comes on, pains pricking, as if parts were broken, parts rigid and numb, constriction - formicating sensation accompanied by shuddering.

147
Sensation as if parts were bitten, as if
in contact with red hot coals, as if
a hot fluid were running through
the vessels, as if parts were in contact
with ice, pains tearing crushing mix-
ed with a few violent sudden clacks
resembling electric shocks. Character-
ized by a remission of the symptoms,
exacerbation at night - dimin-
ished by pressure, increased by
motion, pulse generally soft and
regular (sometimes hard slow vibrating
and irregular) excessive prostration
of strength, anæsthesia, loss of
tissue. Loss of sensation, may af-
fect the skin or be deep seated. Limbs
trunk skin insensible - part mor-
eable at other times immovable.

Paralysis first of Extensor muscles
characterized by debility - sensation
as if the part were broken, feeling
of coldness and rigidity, parts
heavy, lower limbs dragged along,
dropping of things involuntarily.

Paralysis may be general or partial,
may affect single muscles or bundles of fibres

108
Upper limbs more affected than the lower,
in the morning the parts are covered
with a viscid sweat accompanied
by general atrophy. In paralysis
urine pale and watery - skin, pale,
livid, yellow, clay colored, rough or
dry - skin scabs off - skin thinner
and more relaxed, adipose tissue
disappears, muscles thin and soft,
limbs infiltrated, gangrenous
spots, loss of voice, Convulsions
of upper limbs, limbs stretched out,
General convulsions, sensation like
shocks, joints contracted, Epilep-
tic convulsions, Flexor and extensor
muscles affected in alternation,
accompanied by coma and delirium;
more or less stupidity, limbs tremble,
breathing short and stertorous,
mouth as if in the act of smoking,
Cataleptic form convulsions, strange
movements, crying out, talking of
nonsense, Cachexia, skin rough
and scaly, general atrophy.

Orbital Group. Anarosis, lasts short time, pupils
dilated & immoveable, bottom of eye is black -

109
Nasal Group Copious epistaxis, face clay color, cadaverous, and curken, expression of anguish, sponginess of the gums, on the upper margin of the teeth a blueish ash colored border, Gums pale, shrunken, accompanied with phlogism of a blueish color more or less colored, ulcers under the tongue,

Gastric Group. Loss of appetite, great thirst, sweetish and then intensely bitter taste, vomiting of a greenish gray substance, foul bile, vomiting of fecal matter, Colic preceded by feeling of chills, nausea, constipation, passage of hard blackish balls, retention of urine, spasmodic contractive pains as if the walls of the abdomen were fast to the vertebrae. burning searing pain, bowels twisted in various ways, violent anguish, tender walls of the abdomen sensitive, pain relieved by pressure, Renal colic, bladder sympathy, Inflammation of the bowels may terminate in ulceration and gangrene, violent unyielding

70
constipation - Constipation - hard
black balls passed, dryness of
coats of intestines - muscular
fibres paralysed, discharge of
blood with violent tenesmus,
Constriction of the Sphincter ani,

Urinary & Sexual Group Diminished secretion
of urine, tenesmus of the neck of the
bladder, burning in the urethra,
urine brown often bloody, pulling
tearing contractive pain in the scrotum
spermatic cord, uterus vagina, pain
and swelling of the testicles, diminution
of the sexual powers impotence
sterility, spermatorrhoea miscarriage -

Catarrhal Group. Fetid breath, loss of voice
or depression of voice, Cough accom-
panied by blood terminating
in fatal ulceration of the lungs.
Oppression of breathing; anguish, suffo-
cation in the chest.

Cutaneous Group Skin pale yellow and
ash colored, dingy yellow - feces
yellow

Mental Group Idiocy, Loss of memory, Melancholy - sense of fright, Coma - slight motion of the head extremities or tongue, breathing stertorous, waking suddenly and muttering foolish things,

Antidote. Vinegar Magnesia, Sulphuret of Potassa in bath - Sulphuric Acid in lemonade.

— **PULSATILLA** —

The wind flower, Acts upon the skin, mucous membranes eyes, urinary and sexual organs, Suitable to persons of a mild gentle melancholic temperament.

Antidotes Arsenicum China Camphor

Cerebral Group. Vertigo as if intoxicated accompanied by heat in the head pale face, more particularly in the evening - Vertigo when looking up, heavy gloomy feeling in the head with pain in the eyes, ^Nalse vertigo - a sensation in the external canthus from thence to the upper lid causing tension, objects seem to be quivering when looked at.

Luminous rays between eye and object jerking, stinging, and tearing pains worse in evening

112
in the vertex and fore part of the head, Hemis-
crania, pain deep in orbits, as if the brain
would fall out, plate feeling thin,
stupid feeling in the head, sense of
soreness in the forehead, lightness in
the brain, boring pain in the vertex,
Nausea, vomiting with headache
after eating fat food or over watching

Nervous Group

Pains wandering from place
to place - when in joints redness and
swelling - pain as if bruised or ul-
cerated, pains on one side of the body,
pains accompanied by chilliness
asthma, paleness of the face and
trembling of the limbs, Pains bearing
drawing or jerking, worse in the eve-
ning, Nervous Ischias, violent stretch-
ing bearing pain from hip to knee

Inflammatory Group.

Sub-acute irritation,
Rheumatic inflammation of the mus-
cles of the dorsum of the foot, full
bounding pulse, hot burning skin,
Acute gonitis, hot dry skin, full bound-
ing pulse, flushed face, parts sensi-
tive and signs of effusion. Red, hot
swelling of feet, tense, burning pain

sometimes stitching when standing up -
Chilblains, burning pricking pain in
the ball of the toe, Sticking pain in
the shoulder joints and nape of the neck,
when moving, Drawing pains from shoul-
der to wrist, pain in elbow joint when
moved, tenseive pains, Wrist joints as
if sprained - simalar pains in lower
extremities - pain in thigh as if bruised,
laming bearing cutting boring pain,
pricking and soreness in the soles of the
feet, Acute inflammation of the ear,
intense cutting lancinating pain,
internal ear hot and sensitive,
discharge of pus and blood, all kinds
of noises, acute fever, Inflammation of
the eye lids, catarrhal or serofulous,
cutting boring pains in the eyeball,
Conjunctivitis - profuse lachrymation,
burning stitching stinging pains,
agglutination of the eye lids, pressure
as if eyes full of sand, Dimness of
sight as if something were hanging
from the eye lashes - circles of fire before
the eyes.

Special Senses

Otorrhoea from suppressed menstruation, Chronic earache, discharge of pus, deafness from catarrh or rheumatic deafness - all kinds of noises, Inflammation of the Schneiderian membrane, greenish pus, discharged - ulceration of the extremity of the nose, stinging pain in the gums. Toothache drawing jerking pain as if the nerve is put on the stretch, excited by heat and relieved by cold - Toothache of pregnancy

Gastric Group. Bad smell from the mouth coating of the tongue, whitish fur, bitter taste, pungent taste, taste of foul flesh, loss of thirst and appetite, pyrosis, vomiting of bile and mucous saltish or sour, bilious or foul, eructations tasting of food, bitter and sour, nausea while eating, cramping contractive pains in the stomach, drawing pain, throbbing and pulsation in the region of the stomach, cutting and pinching pains in the bowels, painful sensitiveness of the abdominal walls, diarrhoea, discharge of mucous blood or water, obstinate constipation, blind

and bleeding piles. Suppression of piles
the back feeling stiff like a board.

Urinary Group. Frequent ineffectual urging to
urinate, urine watery or inflamed, jelly
like sediment. Contraction of the mucous
membrane of the urethra - after passing
urine a burning sensation. Hematuria
Discharge of mucus,

Sexual Group. Tearing pain in the testicle, draw-
ing tensile pain going out of the abdomen
downward into the testicle, frequent erections
Sexual desire increased, nocturnal emis-
sions, orchitis, burning and stinging
in the vagina and labia, Amenorrhoea
accompanied by nausea, chilliness,
coldness and trembling of feet, Useful
in tender sensitive females. Uterine colic
cutting bearing down pains, discharge
of thick foul coagula, Ailments from
suppression of menses, milky leucorrhoea.
deficient labor pains, spasmodic short
labor pains, deficient or excessive secre-
tion of milk.

Catarrhal Group. Dry nighty cough, discharge
of yellow mucus, dark lumps of blood,
dyspnoea accompanied by vertigo terminating

16
in cough. Asthma suffocative sensation,
nausea, vomiting, cold feet, cold sweat
on the forehead, rush of blood to the
chest, with bad dreams, palpitation
of the heart with sudden loss of sight
Hypertrophy of the right ventricle.

Cutaneous Group. Itching and burning of the
skin, measles like eruptions, Ulcers sting-
ing, burning, readily bleeding. Congestion
of the venous capillaries, coldness of the
feet - Gangrene

Fever Group. Intermittent fever with no
thirst, gastric symptoms developed, chiefly
stage principal part of the attack,
Typhus Abdominalis, & Purpural Fever
when gastric symptoms prevail

Mental Group Depression of spirits, dysphre-
nia, anxiety, disposition to weep -

Sleep. Wakefulness, restlessness, disturb-
ing dreams, hot dry skin during sleep.

Rhus.

Cerebral Group - Nausea vertigo - Arthritic Hem-
icrania, sensation as if the brain were
shaking in the skull, accompanied
by burning pain in the occiput and

forehead, swelling of the head and face.
Special Senses. *Scrophulous ophthalmia*, burning
in the eyes, lachrymation, photophobia,
swelling and inflammation of the lids,
Inflammation of the canthi, smarting sen-
sation and pressure in the eyes, painful
throbbing in the ear, accompanied by
otalgia, dragging as if the ear would
be pulled out, parotitis after scarlet
fever, epidemic parotitis, chronic in-
duration of the parotid and submaxil-
ary glands, cold swelling and stony
hardness. *Crusta lactea*, *Acne*
rosacea of a chronic character -
Arthritic and rheumatic toothache
pain pricking as if a pin were
struck in, tingling in the teeth as
if they would go to sleep.

Gastric Group. Flow of water in the mouth,
dyspepsia of the tongue, bitter taste in
the mouth and of the food, appetite
trifling or gone, pressure on the
spot of the stomach, as if swollen,
urgency to stool, with nausea, tearing
in the intestines, discharge of water
from the bowels, bloody stools,

8
discharge of red yellow stools, mixed
with mucus, of a jelly like and
fluid consistence, stools involunta-
ry - diarrhoea with discharge of blood
and cutting in the bowels, typhoid
inflammation of bowels and peritoneum.

Urinary & Sexual Group. Increased secretion of
urine, Incontinence, swelling of parts,
furious itching of the scrotum, breaking
out, violent erections, furious labor
pains as if menses would come on -
menstrual suppression, from damp or wet feet,

Catarrhal & Thoracic Group. Spasmodic sneezing,
hoarseness, and roughness in the throat, cough
with titillation in tubes, dry cough - accompanied
with taste of blood in mouth, sometimes occurring
at night, acute stitches through the chest, short-
ness of breath, dyspnoea, dry glassy tongue, cough
with stitches and blood delirium -

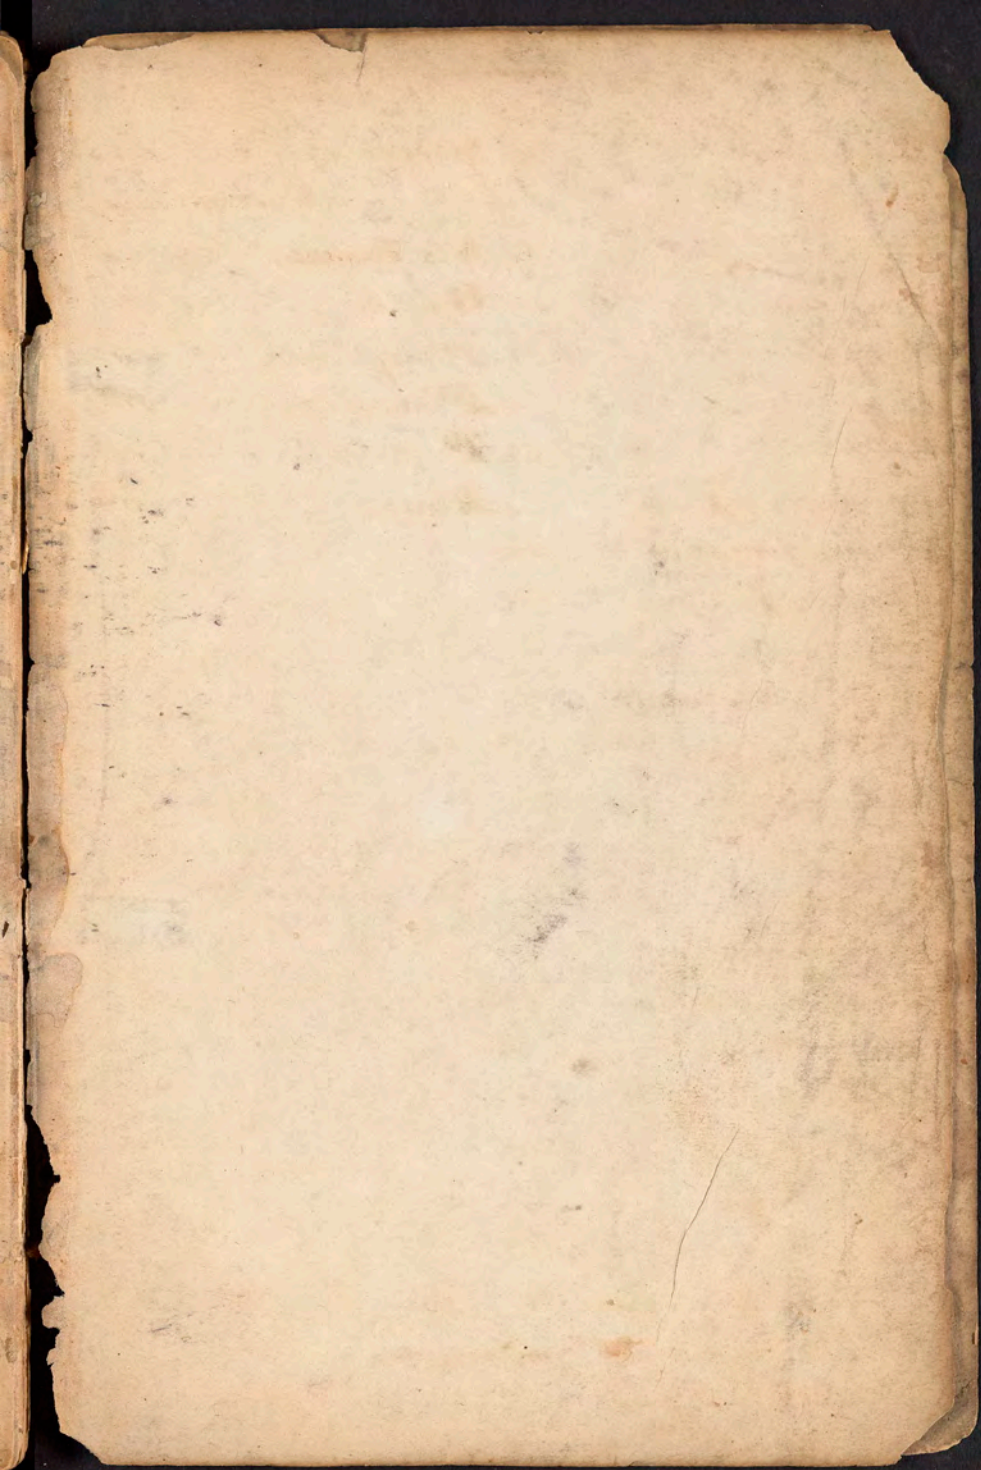

Nervous Group. Painless and cold paralysis of the
extremities, rheumatic paralysis, paralysis
from concussion, coxalgia, tearing and stitching
pain from hip to knee, heaviness of legs,
feeling of numbness in feet and paralysis of feet,
Rheumatic stiffness and lameness of joints,
stinging pains in tendons and ligaments,

tingling and feeling of soreness or bruised feeling,
worse on first moving and less after moving some
what, ^{Cutaneous Group.} Vesicular erysipelas, accompanied by
burning and itching, exudation of serous fluid
eruption on scrotum and prepuce, furious itch-
ing swollen, exudation of serum. Tinea capitis
exudation of a fetid and yellow matter
under scabs, burning and itching, redness of scalp-
vesicular tubercles on knee, hip and shoul-
der joints, insides of ankles, dark brown marks
remained after patient was cured, papular
itch. (Vermix) Itches tubercles accompanied
by burning and itching vesicles filled with
serous fluid, pustula maligna - purpura
hemorrhagica, pains in parts as if sprained and
of flesh were torn from bones, bruises of tendons and
ligaments Measles. ^{Fever Group.} Scarlet fever Small pox
Typhus ^{Mental Group.} Anxiety, feeling of flight,
Antidotes. Emmentations of warm milks
and sweet oil, If sexual parts are swol-
len decoction of saffron - Mercur-
ius sublimatus precipitatus.
